MORAL REFORM IS SWEEPING COUNTRY SAYS DR. WILSON

New Jersey's Governor Made Inspiring Address Before University Alumni Last Evening—Will Address The Graduating Class This Morning.

Special to Telegram.

Chapel Hill, May 29.—Governor Woodrow Wilson, of New Jersey, who is to deliver the address before the graduating class tomorrow, was the guest of the University of North Carolina this afternoon and tonight attended the annual commencement banquet of the Alumni Association, before which assembled the distinguished New Jersey governor made a stirring speech.

In a characteristic speech Toastmaster Francis D. Winston, former lieutenant governor North Carolina, introduced Dr. Wilson to the three hundred alumni from all parts of the state as "the first Democrat of the country and the next president of the United States." The guests arose and cheered for several minutes as Dr. Wilson acknowledged the introduction.

As a preface to his remarks Dr. Wilson said that in his recent Western trip he had observed the same insurgent movement and reform spirit which had manifested itself in New Jersey. "The reform," said the speaker, "is moral, rather than political, and is notably among the young men. Among the older voters I still observe many conservatives whom I am glad to see for we need them for ballast, but party ties are weaker than ever before and I want to see the reform movement spread every inch of canvas it can command. For twenty years," said the speaker, "I preached to young men that it was the business of educated men to go into politics and so, when, without solicitation on my part, the call came to me I had to take my own medicine, though I was truly sorry to give up university work."

Proceeding to the subject of his address Dr. Wilson spoke in part as follows: "Are we or are we not holding up too constantly to our young men the standard of business success. Our Universities are emphasizing practical preparation for immediate success. But what America needs above all things else is something to remind her young men that there is something over and above material success. A people is made up of a compound of its energies and that feeling of spiritual uplift which comes from being united."

"We live in an atmosphere of judgment among our fellows. The moral lesson is coming into the consciousness of the American people and they are going to readjust the standard of their policies and business by it. Our immediate work is to push the moral advantage we have got."

Touching upon the business problem Gov. Wilson defined business as the service of the community properly applied. If there is no service, he said, the profit is illegitimate. Society has the right to hold every material undertaking to this standard. The American people are not opposing anything that is legitimate.

Among the prominent alumni and speakers at the banquet were Dr. F. P. Venable, Col. Robt. Bingham, Norman S. Shaw, Josephus Daniels, Gen. Julian S. Carr, J. Bryan Grimes and Victor Bryant.

A proposition to organize a general alumni association, to be composed of the county alumni associations, to have charge of all matters pertaining to the alumni and to take an active part in matters of concern to the University was taken under consideration at this banquet and W. H. Swift, of Greensboro, was elected president of the executive council.

A movement to raise \$5,000 of a fund of \$15,000 to be employed in building on the university campus a monument to the Confederate dead of the university resulted in pledges amounting to \$4,500 within a few minutes amidst great enthusiasm.

This morning was given over to class reunions and besides the regular period classes, forty members of the classes of 1862, '63, '64, '65, '66, '67 and '68, who left the university before they completed their courses, in order to take part in the civil war, and upon whom the university will bestow the A. B. degree at this commencement, held reunions. The other classes meeting at this time were the classes of 1861, 1880, 1891, 1901, and 1906.

UNITED STATES COURT CONVENES JUNE 5

Case of W. V. Moss And Case of Sidney Allen of Some Interest—Docket is Light And Court Will Hold Not More Than One Week.

The regular June term of United States court for the trial of criminal and civil cases will convene here next Monday, June 5, and continue in session until the cases ready for trial are disposed of. There are few cases of importance on the docket and it is believed that the session will adjourn before the week is out.

One of the principal criminal cases docketed is the one against W. V. Moss, a young white man who is in jail on the charge of impersonating a revenue officer with intent to defraud. It will be remembered that Moss went through the Elks' club and several cigar stores in the city some months ago, claiming that he was a revenue officer and, in fact, wearing a revenue officers' badge. Later it was discovered that Moss was an impostor and that he had stolen the badge he was wearing from the office of the Pierce Printing Company. He was given a hearing before Commissioner Collins and held in a bond of \$500 for his appearance at the June term of court. Later Hudson & Swift and David Stern, counsel for Moss, secured an order for habeas corpus proceedings before Judge Pritchard, but the writ was not granted. Since that time Moss has been in jail.

Another case of more than ordinary interest that will come up during this term of court is that of United States vs. Sidney Allen, the offense being perjury. It will be remembered that at the June term last year two young men, Preston Dickens and Sidney Allen, were arraigned on the charge of counterfeiting. At the trial Dickens pleaded guilty and did his best to clear Allen. The latter also joined in this movement rather freely and the government suspected something. District Attorney Holton got busy and began to pick up threads of evidence here and there and as a result at the December term of court the grand jury returned a true bill against Allen, charging him with perjury—that is with making statements while on the witness stand that he knew at the time to be false.

RALEIGH A. & M. COMMENCEMENT IS IN PROGRESS

Special to Telegram.

Raleigh, May 29.—The Alumni Association of the A. & M. College in annual session this morning adopted resolutions commending the action of the Senior and Sophomore classes of the college, the past session in abolishing hazing and congratulating the student body on the adoption of the honor system. These resolutions were offered by David Clark. The election of officers resulted: President G. Y. Stradley; vice president, C. B. Williams; secretary-treasurer, Robert J. Wyatt; Raleigh; chairman of the athletics committee, R. H. Merritt; representatives on the athletic committee, R. H. Merritt and W. C. Ethridge. The association held its session this forenoon.

This afternoon there was held the class day exercises on the college campus when the newly appointed officers for the next year received from the retiring officers their swords and other accoutrements.

Tonight there was the Alumni Address by W. D. Fawcette, of New York, and the annual commencement address by Judge George C. Alden, of Boston, on "Social and Industrial Problems of America." The graduating exercises take place tomorrow morning.

AMERICAN TOBACCO COMPANY AN ILLEGAL COMBINATION

Case Ordered Back to Lower Court For Purpose of Attempting Reorganization of Company in Harmony With Law—If This Cannot be Accomplished Receiver Will be Appointed to Wind up Affairs of The Concern—Decision Regarded as Drastic.

Special to Telegram.

Washington, May 29.—The American Tobacco Company, its accessories, subordinate corporations and companies, including the English corporations, is held by the Supreme Court of the United States to be an illegal combination in a decision rendered today.

The Supreme Court ordered the case back to the lower court with directions for a further hearing of the interested parties to ascertain whether or not new conditions can be created in harmony with the law. Justice Harlan concurred in part of the court's opinion and dissented in part.

The decision is most sweeping. It goes much further than the lower court's decision and affords small comfort to the big business elements which appeared to be so well satisfied with the Standard Oil decision.

The most striking feature of the decision is the statement that in the event the court below cannot arrange a dissolution of the combination a receiver will be appointed to take charge of the assets and property of the combination in this country in all its ramifications and plan and carry out a sale of all of the properties of the American Tobacco Company. This will unquestionably be viewed as a drastic proposition by the big business interests of the country. Dur-

ing Roosevelt's administration the department of justice first suggested this idea of appointing receivers to administer the affairs of combinations found amenable to the Sherman law. It was believed at that time that the courts would be slow to act upon this suggestion. The fact that the Supreme Court now accedes to this idea indicates just what a great step forward has been taken in dealing with anti-trust matters.

Officials of the department of justice point out that the inclusion of individual defendants in the decision of the court opens up the way for criminal prosecutions and strongly intimate that such will follow.

Summary of the Decree.

First—The combination in and of itself and each and all elements composing it collectively and separately are decreed to be in violation of the first and second sections of the Sherman law.

Second—The court below is directed to hear the parties by evidence or otherwise to determine some plan for dissolving the combination and creating conditions in harmony with the law.

Third—Six months is allowed for the above purpose with two months additional if the lower court deems it necessary.

Fourth—If conditions in harmony with the Sherman law cannot be brought about at the expiration of this period it will be the duty of the lower court to

enforce the decree of the Supreme Court by an injunction restraining Interstate Commerce in the products of the combination, or by the appointment of a receiver. Pending this result the combination, the units of the same, or individuals composing the combination, are restrained from any act designed to extend or enlarge its power.

GUILFORD COLLEGE COMMENCEMENT

Several important events of the Guilford College commencement have been held very successfully. The baccalaureate sermon was delivered to a large and appreciative audience on Sunday morning at 11 a. m. by Rev. E. K. McLarty, pastor of West Market Street Methodist church.

Rev. E. S. Crosland presented a strong address to the Y. M. C. A. and Y. W. C. A. on Sunday night at 8 p. m. Last night at the same hour the Henry Clay oratorical contest was pulled off and was a decided success in every way.

Tonight at 8 p. m. James Hoge Ricks, of the class of 1905, will deliver the annual address to the alumni, large numbers of whom are expected to be present.

The Immense New 26,000 Ton Wyoming, the Sixth United States Dreadnought, Launched.

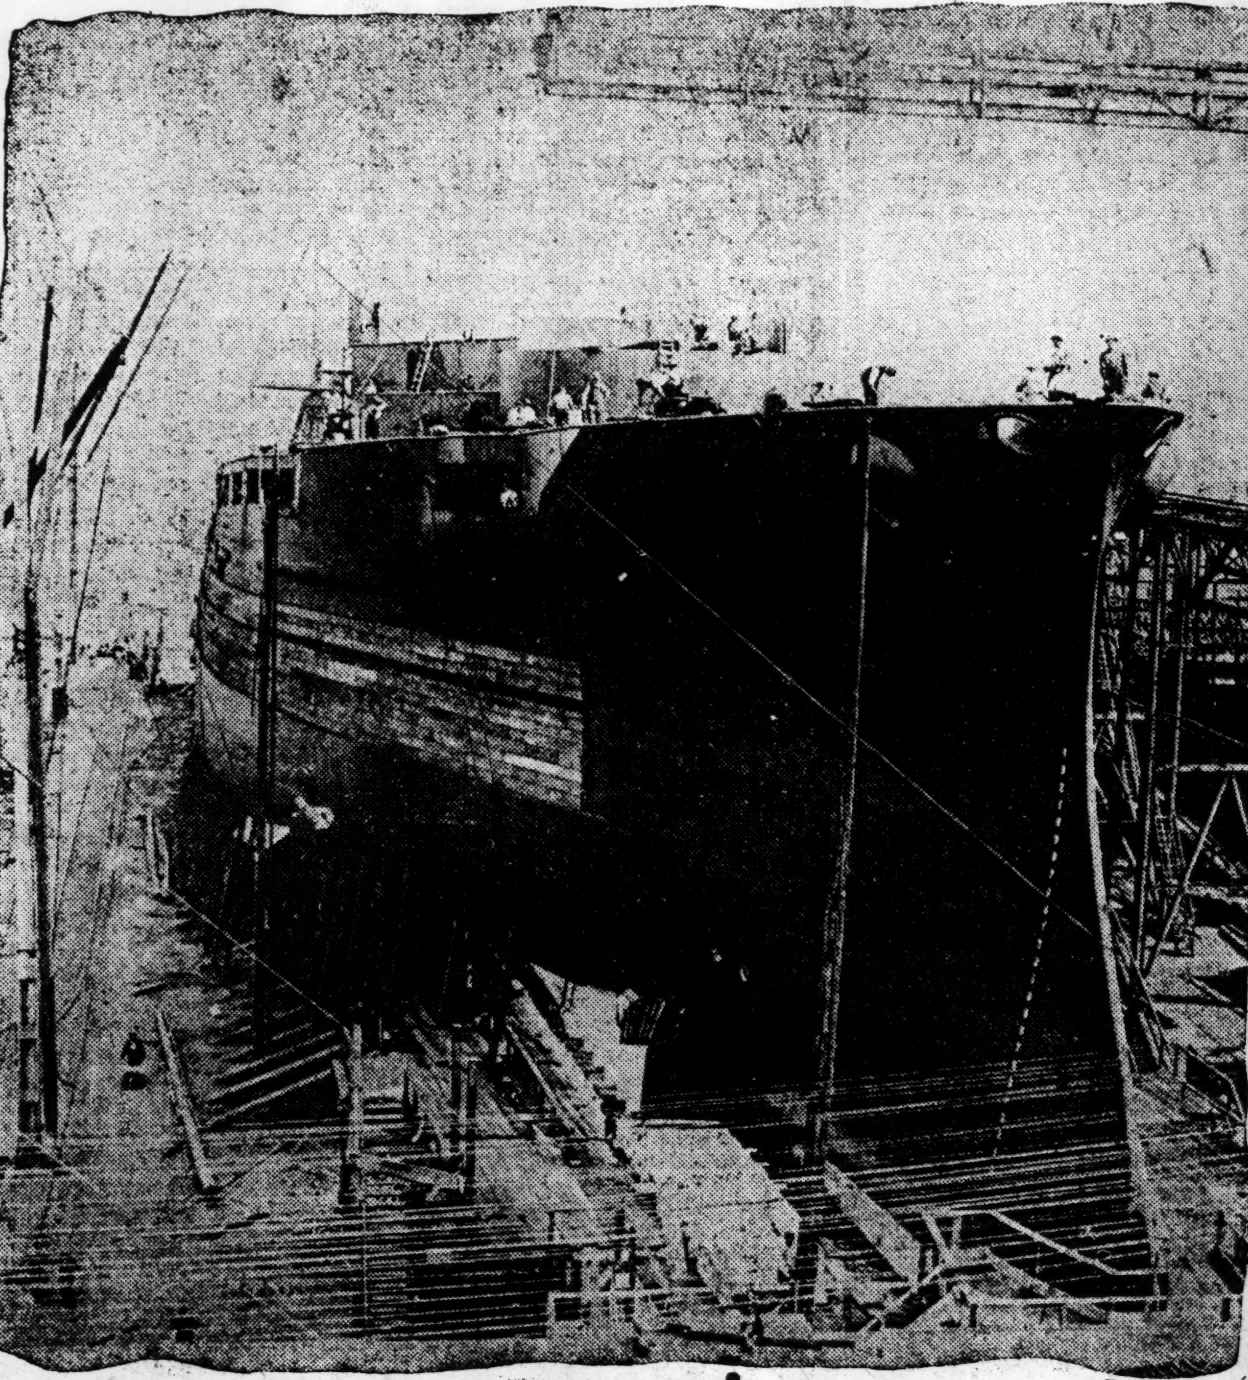

Photo copyright by American Press Association, 1911.

The sixth United States Dreadnought, Wyoming, was launched at the shipbuilding plant of William Cramp & Sons at Philadelphia on May 25. She was christened by Miss Dorothy Knight, daughter of former Supreme Court Justice Jesse Knight of Wyoming. The keel of the Wyoming was laid in February, 1910. The battleship when completed will be equipped with the Parsons turbine engines of 30,000 horsepower and will have a minimum speed of 20 1/2 knots an hour. She is 545 feet long, 96 feet beam, 29 feet draft and will carry a coal supply of 3,000 tons. The armor will be eleven inches on the belt and barbettes and eight inches on the sides. There will be a specially heavy armament on the battleship. The other American Dreadnoughts are the Utah, the North Dakota, the Florida and the Arkansas. The Arkansas and the Wyoming are sister ships, and with their 26,000 tons displacement they surpass all predecessors.

REPRESENTATIVES OF STEEL TRUST DISCUSS NEW PRICES

Will Meet Reduction of Republic Iron And Steel Company—Revelations Made in The Steel Trust Scandal—Several Involved in Mesher.

EXCELLENT SERMON BY BISHOP DENNY LAST EVENING

A large congregation at Centenary Methodist church last night received an excellent sermon, when Dr. Collins Denny, Bishop of the Methodist Church, South, filled the pulpit for an address. Replete with strong expressions that bespoke great depth of thought and feeling, the sermon was indeed an inspiration and uplift to the appreciative audience.

Dr. Denny chose his text from the opening verse of the fifty-first Psalm: "Lord, have mercy upon me, according to thy loving kindness, according to the multitude of thy tender mercies." To many people praying for mercy upon their death-beds the term means only an extension of time, granting them the privilege of life for a while longer. This notion, the speaker declared, was entirely incorrect, that in a long attempt to discover the meaning of the term mercy he had found that its right definition was "righteous forbearance toward offenders." Explaining that kindness, though changed by various evolutions was a word cognate with kin, Dr. Denny declared that David prayed for forbearance toward his erring self according to his kinship to God. Further God's mercies or goodness were more numerous than the sands of the sea, and by the same evolution tender was shown to be akin to the term attend. The prayer then, was also for the same attentive goodness that was given when David killed the lion and bear that attacked his sheep. The speaker ended in an impressive appeal, emphasizing the fact that unpenitence was the most certain death and exhorting his hearers to pray for forbearance according to their kinship to God, and according to his attentive goodness.

SUNDAY SCHOOL COMMITTEE HELD IMPORTANT MEETING

The County Sunday School Executive Committee met Sunday afternoon at 3:30 o'clock at Grace M. P. church. Several items of business were attended to. The association is planning for an education campaign this year.

The report of the finance committee was considered and with a few changes the following was adopted:

"1. That Guilford County set apart one special day in each year to be known as 'Sunday School Association Day' on which day the association work shall be brought fully before the schools."

"2. It is the purpose of the Executive Committee to raise \$600, this year for State and County work, this money to be raised by asking each school to pay cheerfully 5c. per enrollment for the year. If a shortage should then appear the balance to be raised by the finance committee, G. H. Miles, R. G. Vaughn, A. E. Tate, W. M. Combs, Dr. W. T. Whitsett."

The following were elected to serve as a central committee: A. Wayland Cooke, H. A. Moffitt, Rev. Shuford Peeler, J. T. Fain, C. M. Pritchett.

The following resolutions were unanimously adopted by the committee:

"We realize that more effective work should be done in our County Sunday School Association, and we know that the work can be done. We believe special effort should be put forth to thoroughly organize each of the eighteen townships and press especially the matter of organizing 'Teacher Training' classes and 'Organized Adult Classes' in every school."

"The work can be done; the work must be done. In order that Guilford County may come to the front in Sunday School work and become the representative county of the State, we recommend:

"1. That each school be asked to pay cheerfully 5c. per enrollment for the

Special to Telegram.

New York, May 29.—Representatives of the steel trust and about fifty independent companies met here today with the secretary of the steel trust to fix new prices to meet the cut of the Republic Iron and Steel Company, announced a few days ago. The meeting was held at the Metropolitan club. Prominent lawyers are of the opinion that this latest move is in direct violation of the Sherman anti-trust law.

In connection with the meeting of the trust interests here today a number of revelations in the steel scandal were made public. It has leaked out that Morgan interests indirectly used Governor Hughes as a means of securing information that led to the sale of the Tennessee Coal and Iron Company. It is said that A. Barton Hepburn induced the governor to appoint Clark Williams banking commissioner and that it was through the banking department that Morgan secured the information as to the amount of stock in the above company held by the Trust Company of America.

Oakley Thorne, president of the Trust Company of America, demanded a full investigation of the banking scandal. He told how, through Melville Stone, of the Associated Press, he got information as to the purpose of George W. Perkins in making public through the New York Times information that caused the run on the Trust Company of America. Two weeks before the conference at Hotel Manhattan Bank Examiner A. C. Judson made a special examination of the Trust Company of America, pronouncing it perfectly solvent, at which time it carried half a million of stock of the Tennessee Coal and Iron Company.

Roosevelt Invited to Testify.

Washington, May 29.—Col. Roosevelt has been given an informal invitation to testify before the Stanley committee. He has not replied but will testify, most likely. The committee believes that his testimony will prove that Gary and Frick convinced him that financial chaos would follow the refusal to allow the absorption of the Tennessee Coal and Iron Company by the steel trust.

Nothing To Say.

New York, May 29.—When Col. Roosevelt was seen at his home at Oyster Bay regarding the invitation to testify regarding the steel trust he replied that he had nothing to say.

A. P. Roberts Sustains Injury by Fall. Yesterday morning while painting the building of the Southern Power Company A. P. Roberts and Ted Stanley fell from a swinging scaffold, the former receiving serious injuries. The latter escaped with a few minor bruises. The rope holding the scaffold broke and the men plunged to the ground. Mr. Roberts suffered a broken ankle and his back was strained. However, his injuries are not believed to be fatal. Mr. Stanley will be able to resume work in a day or two.

year if possible.

"2. That we pay the proper person a salary of \$150 per year and expenses, for postage and traveling, to have general supervision of the work and require him to see that the work is done."

"3. That we require this person to thoroughly organize each township, laying special stress on 'Teacher Training' and Organized Class Work."

"4. That each township hold a convention during the months of June, July and August, and as often thereafter as convenient."

"5. That the superintendents of 'Teacher Training' and 'Organized Adult Classes' be encouraged to push their work to the front."

"6. That the association pay all expenses, such as postage, printing, and traveling, incurred by the superintendents in doing their work."

In a few days the Central Committee will meet and arrange a program and date for the special 'Sunday School Association Day.'

The central committee was authorized to find and appoint a suitable person to have general supervision of the campaign work, such as holding conventions, organizing townships and teacher training classes.

The dry area in this State is said to be very large and very dry—we refer to the lack of rain.

Peace having been officially declared in Mexico the United States army may peacefully resume its war maneuvers on the border.

Diaz resigned after thirty years. To most of the people it seems that they have been waiting almost that long for Lorimer to resign.

There is still ample opportunity to fight the flies. They are here and will stay if given half a chance. Continue the war on the flies.

If the dove of peace ever finishes the job in Mexico, she should be reminded that there is plenty of work to do in the ranks of the Republican party in this country.

Postmaster General Hitchcock spent \$7,600 in furnishing his office. Perhaps that furnishes one of Hitchcock's reasons for wanting to raise the postage rate on newspapers.

Will the Wilmington Dispatch please make a note of the fact that the Lower House of Congress has a Kitchen and that an effort is to be made to add a Kitchen to the Senate chamber.

There is, also, a job for the dove of peace down in Charlotte. The populace down there is knocking the home team in a way that clearly indicates the need of pacification.

Baltimore Sun has discovered that fishermen do not brag as much as they used to. However, it seems to be a certainty that they prevaricate with old-time enthusiasm.

The new President of Mexico says that one term is enough in his case. If Diaz has been satisfied with several terms instead of several times several terms his career might have ended differently.

An exchange wants to know how long Asheville will stand for law enforcement. As it is said that Asheville has reformed permanently she will be expected to stand pat for law enforcement.

Governor Woodrow Wilson of New Jersey speaks at the University of North Carolina today. The Wilson boom for President has attained some size in North Carolina already and it is probable that it will grow to several times its present size during the day.

Senator Gore of Oklahoma is for Woodrow Wilson for President. The Columbia State says Senator Gore is the biggest man and the straightest big man in Oklahoma. In his advocacy of Wilson Senator Gore is backing a big man and a straight man.

The Greenville, S. C., Piedmont is mistaken. It announces that "All pennants belong to Greenville." That is wide of the mark if it is in reference to the

1911 ball pennant of the Carolina Association. This pennant does not belong to Greensboro yet, but it will at the end of the season.

The information comes from Washington City that the Champ Clark boom is growing and is likely to distance the Judson Harmon boom in size and the enthusiasm of its adherents. The Speaker is all right from a Democratic standpoint, and if he can secure the nomination, will be elected.

Spartanburg Herald says that exhibits seen in that city during the past few days inevitably drive one to the conclusion that the women are not wearing enough clothes to keep the cotton mills running a month longer. The editor of the Wilmington Dispatch has noted similar exhibits at Wrightsville Beach, and they have been seen elsewhere; so it appears that the ladies are determined to boycott the mills.

Two hundred and fifty million people of the world wear no clothes, and yet the cotton mills of the country announce that there is over-production and cloths cannot be sold. Let the cotton mill men get in touch with the two hundred and fifty million who need clothes and teach them that the proper thing is to wear clothes made of American cotton by American mills. Here is a great opportunity for the cotton manufacturing industry of this country, and if it is followed up it will relieve a condition of affairs which promises to become more and more difficult of solution for the cotton mill men.

Greenville, S. C., Piedmont draws a comparison between the Charlotte baseball team and the Mecklenburg Declaration. There is no ground for comparisons in this case. The Mecklenburg Declaration was first in the declaration percentage column while the Charlotte team is seeking an exit through the bottom of the cellar.

The Greensboro way is to boost the business of Greensboro. The Greensboro way is to patronize home industries. The Greensboro way is to trade at home. The Greensboro way wins. Let us keep moving in the Greensboro way and go right on boosting Greensboro's business and industries.

The new railroad movement continues to attract attention along the proposed route and is being more or less talked about throughout the State. The proposition has met with nothing but favor in the counties and towns through which it is proposed to build the road. It is also meets with widespread favor in this city and county. With all the people whose interests will be affected united for the building of a railroad that is so much needed and will open up so much splendid territory, it should not be difficult to secure the money necessary for the purpose.

THE KITCHEN

Rhubarb Chutney.

Ingredients: A pound of rhubarb, six small chillies, four onions, an egg, a spoonful of ground cloves, a spoonful of cinnamon, a handful of salt, a small teaspoonful of brown sugar and a table-spoonful of grated horseradish. Method: Chop the rhubarb, chillies, onions, and mix together, sprinkle salt over them, let it stand all night, then drain. Add the other ingredients, cover with vinegar and simmer gently all day. Stir frequently. This chutney is excellent with cold meat.

Cocoanut Puffs.

Ingredients: A tablespoonful of castor sugar, two tablespoonfuls of self-raising flour, an egg, a teaspoonful of desiccated cocoanut and a piece of margarine about the size of a walnut. Method: Put the sugar, flour and cocoanut into a basin and add the egg (beaten), mix together, then add the margarine (warmed), and mix into a stiff paste. Pinch into little pyramids and bake in a good oven for a few minutes. They must be watched well, or they will get too brown. They should be just a pale golden color. They make a nice addition to a tea table, and are easily and quickly made.

Stewed Liver and Bacon.

Ingredients: A pound of liver, a quarter of a pound of fat bacon, a table-spoonful of flour, a teaspoonful of salt, a teaspoonful of powdered sage, a quarter of a teaspoonful of pepper, one large or two small onions, and three-quarters of a pint of water. Method: Fry the bacon and put in a saucepan, then fry the onions, put in a plate the salt and flour and sage, and mix all well together, and put into the saucepan, add the water (hot), and boil. Cut the liver up in pieces and put (raw) into the stew, and it must simmer, and boil again, for one and a half hours.

Sense in Short Sentences

He who serves his friends is never out of a job.

Killing time may mean the suicide of success.

To rule oneself is the first requisite to rule others.

Any man who looks for trouble is blind to his own interests.

The greater the uncertainty the more positive the ignorant man.

The average so-called blessing in disguise is very unsatisfactory.

There is nothing quite so certain as the uncertainty of woman.

No man is more miserable than he who strives merely to please himself.

Many people prefer theoretical to practical work; but they don't like to take their pay that way.

When a man begins to argue with his conscience as to whether a thing is right or wrong, it's safe to decide that it is wrong.

If you have misfortunes, pains, disease, losses, keep them to yourself. Bury them. Those who know you have them will love you and admire you infinitely more for this suppression.

The individual can't attain self-control in great things only through self-control in little things. He must study himself to discover what is the weak points in his armor, what is the element within him that keeps him from his fullest success. This is the characteristic upon which he should begin his exercise in self-control.

Every man is rich or poor according to the proportion between his desires and enjoyments. Of riches, as of every thing else, the hope is more than enjoyment; while we consider them as the means to be used at some future time, ardor in the pursuit of them secures us from weariness of ourselves; but no sooner do we sit down to enjoy our acquisitions than we find them insufficient to fill up the vacuities of life.

Victories of Peace.

An ancient flier of old saws once sprung it on the world that peace had its victories no less than war. We should say yes in several languages.

What was the news we got from Texas when the army moved in? War alarms and gossip of the camp? Yes, about three inches a day of that to forty odd columns of baseball gossip from the teams that were practicing in the state.

We may be a warlike people, ready to swim the Rio Grande or the Pacific ocean at the drop of the hat, but until the war signal is sounded we will keep our eye on the ball game.

And, by the way, while we are pulling for universal peace why not let each country organize a championship ball team and fight out their differences with the bat instead of resorting to the crude, old fashioned gun methods?

Looked Well Preserved.

"I wonder what the seventeen year locusts are like," said the blushing girl.

"Don't you remember them?" asked the horrid man.

"Of course not. I was too young when they were here before."

"Weren't you as old then as you are now?"

Why He Was Sure.

"Have you seen anything of my son John?"

"No, nor your son Bill."

"I have no son Bill."

"That is what I thought. I told my wife so when I didn't see him go by."

The Way it Goes.

"Jack and I kissed and made up."

"Did?"

"Yes."

"Different here."

"How is that?"

"Charlie and I kissed and fell out."

Every Time.

"Pride goes before a fall."

"Yes."

"Do you know what comes after?"

"No."

"The merry ha-ha!"

How He Felt.

"Pa, do you think the harem skirt will ever come in?"

"Not in this house."

Not Qualified.

"You say that she wouldn't be able to keep house if she were married?"

"I don't think she could do it very well."

"Why do you hold that opinion?"

"Well, for one reason she thinks babies are bric-a-brac."

The man who has to eat his own words seldom has an appetite for a repetition.

Advertising

Talks

H. G. B.

That NEWSPAPER ADVERTISING IS OF GREAT VALUE IS evidenced in no better way than the character of the institutions which are the larger users of newspaper space. The public service companies throughout the country are employing newspaper advertising in the conduct of educational campaigns, in which the public at large is being given an insight into the problems that have to be handled. The sympathy of the public is being enlisted to the benefit of the public service companies. There has been a tendency as is well known to jump at conclusions where CORPORATIONS are involved, and these companies have been compelled to protect themselves against thousands of suits that have been brought on the very flimsiest of excuses. The advertising campaigns that are being conducted have lessened the damage suits and the indications are that where such campaigns are pursued a ban will be placed upon "FAKE" DAMAGE SUITS—the public will not tolerate them.

The business men at the head of the great corporations have shown far-sightedness in this policy of publicity. They realize the prestige and weight that the newspapers of good standing in the community have and they are appropriating large sums of money for the purchase of advertising space.

If the large industries can use newspaper space to such good advantage, the smaller retail business concerns can certainly employ to advantage newspaper space to talk daily with the consumers of their products.

IN GREENSBORO, THE TELEGRAM, THE PAPER that goes home, that prints all the news that is fit to print while the bloom is on it, is the best advertising medium for any reputable business.

Chronic.

"What is the matter?"

"Oh, we have a new maid, and she is so stupid."

"Dear me! You must get used to it. We always have a new maid, and she is always stupid."

Reaction.

He was the party's very life,

A prince indeed of men,

But when the company was gone

His grouch came back again.

KEEP THE KIDNEYS WELL

Health Is Worth Saving, and Some Greensboro People Know How to Save It.

Many Greensboro people take their lives in their hands by neglecting the kidneys when they know these organs need help. Sick kidneys are responsible for a vast amount of suffering and ill health, but there is no need to suffer nor to remain in danger when most all diseases and aches and pains due to weak kidneys can be quickly relieved by the use of Doan's Kidney Pills. The following statement leaves no ground for doubt.

F. S. Miles, Main St., Reidsville, N. C., says: "I am a strong believer in Doan's Kidney Pills, having used two boxes of this remedy. The results were very satisfactory and consequently, I feel justified in advising other kidney sufferers to give this preparation a trial."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, New York, sole agents for the United States.

Remember the name—Doan's—and take no other.

NEWS NOTES OF HIGH POINT

High Point, May 29.—H. G. Barnes, formerly secretary and treasurer of the Eagle Furniture Company, has leased the large warehouse building of the Union Brokerage Company, near the High Point Furniture Company, for the purpose of manufacturing chairs. Mr. Barnes and his associate, C. J. Jones, will be ready for business in about two weeks, and will manufacture a nice line of up-to-date chairs. They will buy the stock in the white and construct the goods from this material.

Carl J. Clapp, who was formerly postmaster at Gorgona, Isthmus of Panama, has been appointed assistant postmaster under W. P. Ragan, postmaster of High Point. Mr. Clapp, who is a native of Guilford county, is well qualified for this position. He was serving formerly in the Greensboro postoffice under Postmaster Glenn, and later under Postmaster Douglas before going to Panama. Mr. Clapp succeeds A. A. Holton, the former assistant, whose resignation took place some weeks ago and who is now city clerk. Mr. Clapp will enter upon his duties June 1.

W. P. White, who has been engaged in the manufacture of moulding for several years in this city, has secured the newly finished Dougan Davis building on North Main street in which he will begin business in a few days.

Marshall Setzer, the young boy who met such a terrible death at the Columbia Furniture factory Saturday, was buried this afternoon at 4 o'clock in Parkwood cemetery. A large concourse of people attended the services, which were conducted by Rev. J. D. Bowers.

What a Druggist Knows.

There are Headache Remedies in liquid and in tablet form, but you will find Kadok, the powder form, far surer and safer, for any form of Headache, Brain Fag, Neuralgia, Toothache, Earache or La Grippe Pains. Try it—10c. pink envelope. See that it is Kadok.

The coming man counts among his assets a good press agent.

Foley Kidney Pills are a true medicine. They are healing, strengthening, antiseptic and tonic. They act quickly.

Foley Kidney Pills take hold of your system and help you to rid yourself of your dragging backache, dull headache, nervousness, impaired eyesight, and of all the ills resulting from the impaired action of your kidneys and bladder. Remember it is Foley Kidney Pills that do this. For sale by Howard Gardner.

Hunger taken in liberal doses before meals is an excellent cure for indigestion.

Do You Have the Right Kind of Help? Foley Kidney Pills furnish you the right kind of help to neutralize and remove the poisons that cause backache, headache, nervousness, and other kidney and bladder ailments. For sale by Howard Gardner.

A clock is about the only thing that strikes and keeps on working.

A Burglar's Awful Deed may not paralyze a home so completely as a mother's long illness. But Dr. King's New Life Pills are a splendid remedy for women. "They gave me wonderful benefit in constipation and female trouble," wrote Mrs. M. C. Dunlay, of Leadville, Tenn. If ailing, try them. 25c at Fariss-Klutzn Drug Co.

Most of us are vain, but it would puzzle an expert to show justification for the vanity.

Saved Child From Death. "After our child had suffered from severe bronchial trouble for a year," wrote G. T. Richardson, of Richardson's Mills, Ala., "we feared it had consumption. It had a bad cough all the time. We tried many remedies without avail, and doctor's medicine seemed as useless. Finally we tried Dr. King's New Discovery, and are pleased to say that one bottle effected a complete cure, and our child is again strong and healthy." For coughs, colds, hoarseness, lagrippe, asthma, croup and sore lungs, it's the most infallible remedy that's made. Price 50c. and \$1.00. Trial bottle free. Guaranteed by Fariss-Klutzn Drug Co.

Train up your children in the way they should go and when they are grown they will have the same kind of a row with their own offspring.

What a Druggist States. There are Liver Syrups, Liver Pills and Dry Regulators, all too drastic and disagreeable and, while may give quick relief from one trouble, get you into worse often. Vick's Little Liver Pills are made right and always produce curative effect and have no taste—far superior to calomel for children and have no equal as Tonic Laxative.

It doesn't take a man long after he begins to talk to show just where his grouch is located.

NEWS NOTES OF WHITSETT

Whitsett, May 29.—Dr. W. T. Whitsett is at Chapel Hill this week attending the University closing where Hon. Woodrow Wilson speaks on Tuesday. He went down Monday to be present at the meeting of the board of trustees.

Prof. J. W. Scroggs after taking in the commencement here, went over to Durham, where he will remain for the Trinity commencement. Prof. J. W. Moser will attend the summer school at Chapel Hill this year.

Rev. Thomas Carrick, of High Point, was here Monday and served as one of the judges in the orator's contest.

We were glad to have Prof. J. W. Lasley, Jr., of the State University with us for the closing exercises this year.

Prof. Thos. R. Foust was called to New York City and could not be here for Monday's exercises as he had intended.

Messrs. L. A. Carmon, J. D. Oldham, W. J. Thompson and others came home for the exercises and remained with their families a few days, before going back to their work in Virginia and South Carolina.

Mrs. J. Landers Gray, of Gastonia, has returned home, after a short visit to her parents here.

In the Wake of the Measles.

The little son of Mrs. O. B. Palmer, Little Rock, Ark., had the measles. The result was a severe cough which grew worse and he could not sleep. She says: "One bottle of Foley's Honey and Tar Compound completely cured him and he has never been bothered since." Croup, Whooping cough, measles cough all yield to Foley's Honey and Tar Compound. The genuine is in the yellow package always. Refuse substitutes. For sale by Howard Gardner.

The man who didn't know it was loaded frequently doesn't live to learn the truth about the matter.

WARNING TO RAILROAD MEN.

E. S. Bacon, 11 East St., Bath, Me., sends out this warning to railroad men: "As conductor on the railroad, my work caused a chronic inflammation of the kidneys, and I was miserable and all played out. A friend advised Foley Kidney Pills and from the day I commenced taking them, I began to regain my strength. The inflammation cleared and I am far better than I have been for twenty years. The weakness and dizzy spells are a thing of the past and I highly recommend Foley Kidney Pills."

You can't keep a bad man down. He always bobs up with a plea for vindication.

It Startled the World.

When the astounding claims were first made for Bucklen's Arnica Salve, but forty years of wonderful cures have proved them true, and everywhere it is now known as the best salve on earth for Burns, Boils, Scalds, Sores, Cuts, Bruises, Sprains, Swellings, Eczema, Chapped hands, Fever Sores and Piles. Only 25c at Fariss-Klutzn Drug Co.

It is easy enough to explain a thing away, but it frequently refuses to stay away after the explanation.

Do Ghosts Haunt Swamps?

No, Never. Its foolish to fear a fancied evil, when there are real and deadly perils to guard against in swamps and marshes, bayous, and lowlands. These are the malaria germs that cause ague, chills and fever, weakness, aches in the bones and muscles and may induce deadly typhoid. But Electric Bitters destroys and casts out these vicious germs from the blood. "Three bottles drove all the malaria from my system," wrote Wm. Fretwell, of Lucama, N. C., "and I've had fine health ever since." Use this safe, sure remedy only. 50c at Fariss-Klutzn Drug Co.

More Important.

"I am going to be married in June." "Have you got the girl's consent?" "Not yet, but I have secured my own."

There is more Catarrh in this section of the country than all other diseases put together, and until the last few years was supposed to be incurable. For a great many years doctors pronounced it a local disease and prescribed local remedies, and by constantly failing to cure with local treatment, pronounced it incurable. Science has proven catarrh to be a constitutional disease and therefore requires constitutional treatment. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, Ohio, is the only constitutional cure on the market. It is taken internally in doses from 10 drops to a teaspoonful. It acts directly on the blood and mucous surfaces of the system. They offer one hundred dollars for any case it fails to cure. Send for circulars and testimonials.

Address: F. J. CHENEY & CO., Toledo, Ohio.

Sold by Druggists, 75c.

Take Hall's Family Pills for constipation.

C. W. EDWARDS, Prop.

GOT HIS HAIR BACK.

Was Perfectly Bald When He Started to Use Newbro's Herpicide.

Frederick Manuel, Maryland block, Butte, Montana, bought a bottle of Newbro's Herpicide, April 6, '98, and began to use it for entire baldness. The hair follicles in his scalp were not dead and in 20 days he had hair all over his head. On July 2 he writes, "and today my hair is as thick and luxuriant as any one could wish." Newbro's Herpicide works on an old principle and with a new discovery—destroy the cause and you remove the effect. Herpicide destroys the germ that causes dandruff, falling hair, and finally baldness, so that with the cause gone the effect cannot remain. Stops falling hair at once and a new growth starts. Sold by leading druggists. Send 10c. in stamps for sample to The Herpicide Co., 220 West 12th St., Minneapolis, Minn.

One dollar bottles guaranteed. Fariss-Klutzn Drug Co., and Greensboro Drug Co., Special Agents.

There is BEAUTY, DURABILITY and SATISFACTION in every monument made by Englehart Granite and Marble Works. Our specialty WINNSBORO BLUE GRANITE. Phone 281.

UNDERTAKING OUR SPECIALTY

Day 762 — PHONES — Night 1442

Some people are fond of making money and others are bent only on seeing it change hands. Home is the place for babies, but lots of folks seem to think it is some body else's home.

FOR FANCY SLIPPERS

EASY TO HAVE PAIR TO MATCH
EVERY GOWN.

By the Use of Rosettes the Pardonable Deception Cannot Be Discovered—Plaited Ribbon Another Style of Trimming.

One of the delights of the present day girl is to have a collection of fancy slippers—a pair for almost every gown. None of these slippers are plain and many of them are very much decorated. These decorations can be changed so as to make the same slippers look like something entirely different. The girl who cannot have as many pairs as she has gowns can make for herself a large collection of rosettes, bows with buckles and various little fancy trimmings.

Black velvet slippers are used with many gowns and they can have flat white bows with rhinestone buckles or colored chiffon and satin roses. These little flowers are not hard to make. A strip of the material is folded over and gathered, then twisted in such a way that it looks like the petals of a rose. There is a certain knack in the twisting, and the girl who does not succeed in doing it might take a lesson in making the flowers at an embroidery shop.

Another style of trimming is a flat rosette made of finely plaited ribbon. This is sewed around a small circle of the same ribbon, stiffened and edged with beads. For very full dress occasions a pretty way to trim the slippers is with little rhinestone butterflies, whose wings stand up. These may be right on the slippers or have a rosette under them. The trimming is often in a different color from the slippers, so the girl who has a white pair can have chiffon rosettes or flowers in pink, in blue and in yellow to go with gowns of those colors. If the gown has touches of black in its trimming (as so many do now) a better effect is given by using black slippers, either of velvet, satin or patent leather. The same decorations can be used on those as on the white slippers, and a few strong stitches will hold them in place, so it is quite easy to change them.

FRILLS FOR THE LITTLE ONES

Small Maidens and Their Beaux Have Distinct Fashions as Have Their Elders.

Belts are the thing. Wide ones of leather are displacing the sash.

Even on the frilliest frocks they are seen.

For tiny boys and girls, as for their elders, there are distinct differences in effects to be worn in the morning or afternoon.

For the former time belts are a heavy grade of leather.

Black and tan are the smartest colors.

Buckles, leather covered, to match, are more in vogue than metal.

The former variety costs more, and therefore, is not so common.

Bright colors, red, blue and green, may appear on dresses in belts.

They should be seen before noon only, to make variety.

For afternoon, little girls who scorn sashes have their frocks finished with a delicate color by the introduction of kid, not leather belts.

These come in light blue, pink, yellow, and indeed every hue of the rainbow.

They are as wide as the leather bands, but the kid is extremely soft.

It may be "dressed" or suede finish.

With such belts silk stockings, and kid shoes of the same color must be chosen, and, of course, hair ribbons are to match.

The same rule for little girls applies to tiny boys, but after the age of five years the latter should wear belts made only of leather.

FROM PARIS

A Model by Lewis of Paris.—Black chip hat, with spray of crimson roses and black velvet bows.

Ribbon Flowers.

Ribbon flowers are both fashionable and beautiful. The rosebud spray is very pretty. Cut bias strips three inches wide of chiffon or any soft satin fabric; satin is the best. Make a fold which will be one and a half inches wide. Fasten thread and start winding around and around. Keep the fold tight in the center and loose on the outside until you have your rose of the desired size. For hair wreaths, which are so pretty, attach green rose foliage, which can be bought for a small amount. Forget-me-nots are made by cutting narrow blue ribbon into five inch lengths; make a tight knot in the center of each length, using a little yellow for center. Either of these flowers are very pretty on children's hats.

NEW SHAPES IN HATS

SMALL HELMET FRAMES RESPONSIBLE FOR FASHION.

Large Flowers Used on the Smaller Designs—Good Effect Obtained by a Combination—Illustration Shows Points.

The little helmet-shaped frames covered with flowers and finished with a single sprightly bow of velvet, have proved so useful and are so pretty that they are probably responsible for the larger flower covered shapes now coming in. When a hat is at once delightful to look at and possesses durability, it has two items in its composition that appeal to every woman, writes Julia Bottomley in the Illustrated Milliner.

For small shapes large flowers are most often used. The entire hat may be made of them or the crown is alone covered with flowers and a small up-rolling brim in a harmonizing braid makes a graceful frame for the face.

The best effects are achieved by combining bluish and white brims with all-flower crowns or by making the brim in braid, faced with velvet, both in the color of the flowers. The daintiest shade in the flowers will usually prove a good choice for the braid and velvet.

These all-flower turbans are often embellished with standing algrette effects in silk fibre, millinery grasses or other fancy trimmings. Splendid quills curved in outline and lustrous, like those shown in the illustration, make an ideal finishing touch.

Numbers of large hats (and some very large ones) are shown with both brim and crown hidden by blossoms. To avoid a too heavy appearance small flowers are used for these, with a few larger ones interspersed. The

best large hats of this character have flower-covered crowns and the brim only partly covered by them. Velvet loops, or ribbons, usually finish such designs.

DUTCH COLLAR AND CUFFS

Some Valuable Hints for the Many Who Are Fond of Wearing Dainty Frills.

The girl who likes to lighten a dark costume with dainty frills, should make herself one of the sets of round Dutch collar and cuffs in plaited lawn.

The frills are made of fine white lawn or dotted muslin. They are cut three and a half inches wide for the collar and two inches for the cuffs.

Mark the edge in a tiny scallop with a spool of two hundred cotton, and buttonhole in white or colored mercerized cotton in a shallow line.

When finished sew into eighth of an inch side plaits and sew into narrow band the right length to fit around wrist and neck.

The frill falls softly from the band or in the sleeves may be inverted and turned back, being caught at one side with a lace pin.

Instead of arranging in plaits, which are hard to iron, the frills may be run in thread tucks to give the fullness.

This model is good for high turnover effects and for the Dutch collar.

For the latter the strip should be made narrower at the ends than in the middle.

Fads.

Crepes figure conspicuously among the new cottons.

Turnback cuffs are a favorite finish for elbow sleeves.

The gayest colors appear in new stockings and shoes.

In gloves gray is preferred to white for dressy occasions.

The spiked incrovable coat has made its appearance.

Striped ribbons may be used on hats for morning wear.

For elegant dresses gold increases its popularity every day.

Ruchings are coming back fringed, single and double-pleated.

Satin Suits Still Popular.

The black satin frock is still popular and black and white models are seen everywhere. The satin suits are rarely made on strictly tailored lines, but are cut after a fanciful pattern, the high-waisted coat with a circular and tight-fitting flounce attached.

Putting the Little One to Bed. — When putting baby in his cradle or perambulator, place him on his right side. You can alter his position later on. Remember particularly in connection with his cradle that it makes him uncomfortable to be put on his back directly he has his food.

THAT ANXIOUS MOMENT ON MOVING DAY

(Copyright, 1911.)

LONDON POPULATION 7,252,963.

British Census Shows 36,075,269 People in England and Wales.

London, May 29.—Provisional figures returned by the census officers give the population of England and Wales this year as 36,075,269 compared with 32,327,843 in 1901. While most of the cities and counties show an increase there are many cases, particularly in Wales, where there has been an actual decrease.

Greater London's population has increased to 7,252,963 from 6,581,402 in 1901. This increase is entirely in what is known as the outer ring, showing that the people are moving from the more crowded centers. In fact many of the old metropolitan boroughs and the city of London proper have lost to the suburbs.

The County of London, including the

City of London and the boroughs immediately about it, shows a decrease from 4,536,267 in 1901 to 4,522,961 in 1911.

ACCEPT INVITATION.

Confederates Will Strew Flowers on Graves of Union Dead.

Chattanooga, Tenn., May 29.—Ex-Confederate soldiers have been invited to take part in the Federal Decoration Day exercises at the National Cemetery, and the invitation has been accepted. The unusual occurrence of foes aiding in the strewing of flowers on the graves of Union dead will be witnessed here next Tuesday.

The person who has to work hard for his dollar is generally too tired to spend it, and so he gets into thirty habits.

Valuable Footprints.

A young Colorado ranchman has sold two hardened dinosaur tracks for a college course. Thus, it appears that when it comes to leaving valuable footprints the dinosaur has the lives of great men treading water.—Detroit News.

Too Often the Truth.

One of Abe Martin's sayings: "Uncle Henry Moon, aged ninety, dropped dead today after splitting six cords of wood. His body was found by his four sons who were returning from a billiard tournament."

Idea in Paper Manufacture.

It is proposed to manufacture paper from pulped blue-gum timber. Tests have been carried out at English paper mills and are said to give a product equal to that made from African esparto grass.

WILL SAVE MUCH TROUBLE

Simple Device That Does Away With With Difficulty in Threading a Darning Needle.

Any little time-saving suggestion is always well worth making a note of, and though the hint contained in our sketch may not be new to all our readers, it will certainly be of use to some.

The difficulty sometimes encountered in threading a darning needle with wool is familiar to many of us, and our sketch illustrates a way out of the difficulty.

If a loop of cotton is inserted through the eye of the needle, and the end of

the wool placed in it, it may in this manner be pulled through the eye in a moment.

The sketch so clearly shows the way in which this may be done that further explanation is unnecessary.

CARVED IVORY ON THE DESK

Is Looked Upon as the Most Dainty Equipment That a Girl Can Utilize.

Articles made wholly or partially of ivory are now of so practical an order that the fad for collecting ivories is no longer regarded as an extravagance. It is the fancy of some girls of ultra-refined taste to choose ivory whenever possible for correspondence, fancy work and toilet conveniences.

A charmingly dainty equipment for a girl's desk consists of carved ivory blotting pad corners, a "Three Wise Monkeys," "See No Evil," "Hear No Evil" and "Speak No Evil" paper-weight, book and envelope knives, stamp box, clock and photograph frames.

A white enameled willow work basket may be equipped with an all-ivory tape measure, ribbon reels, thimble, needle case, glove and stocking darners, stiletto and bodkin and with ivory mounted embroidery scissors and pin-cushion.

For all white toilet table there are powder, cold cream and jewel boxes entirely of ivory, brushes and combs mounted with ivory and complete manicure outfits.

Besides stand sets include an ivory bound prayer book, ivory handled call bell, ivory carafe tray and ivory mounted candlestick.

Among the trifles to be worn or carried are ivory shirt waist sets, belt buckles, hatpins, vanity boxes, change purses and card cases.

Under new management Lindley Park opens June 5th. May 30, 2t

NOTICE TO SELLERS OF NEAR-BEER.

The State Treasurer has ruled that Sheriffs will issue State and County license for the sale of Near-Beer for the month of June 1911, and collect for only one month, \$3.35.

All persons selling Near-Beer are notified to obtain this license in advance. B. E. JONES, Sheriff.

Friday, May 19, 10t.

DAILY MARKET REPORTS

WEATHER FORECAST.

Louisiana—Generally fair. Arkansas—Unsettled, showers in North, and cooler. Oklahoma—Unsettled, showers in Northeast. East Texas—Unsettled. West Texas—Unsettled, showers in Pan Handle. North Carolina, South Carolina, Georgia, Florida, Alabama—Fair. Mississippi—Fair tonight, slightly cooler in extreme North portion tomorrow.

COTTON LETTER TO J. E. LATHAM.

New Orleans, La., May 29.—The weather map shows cloudy in Texas and Oklahoma, generally fair elsewhere, good rains fell over the Northern and Western part of Oklahoma and some in Northwest Texas but the cotton section of North Texas has none except at a few points and there was no rain of consequence in the rest of the belt, except thundershowers at a few widely isolated points. Temperatures were generally high, particularly in the central belt. Detailed rain records show that five stations in Texas out of 49 government stations had rain also eight stations out of eleven in Oklahoma showing that that state was pretty well favored with rain over Sunday, whereas only a few stations in Texas, principally in the northwest, had good rains. No precipitation in the Atlantic. Indications are for continued unsettled weather in the Northwestern quarter, but are not good for rain elsewhere. Our reports from Texas, while generally mentioning good cultivation, say that rain is being needed and badly needed in North Texas. Our market ruled quiet, but steady around Saturday's closing prices. It is waiting for Friday's report. Old crops are governed by developments in New York while new crops are steady, owing to the short interest and uneasiness over the dry hot weather in the central states and the Carolinas. New York will be closed tomorrow but our exchange will be open.

HAYWARD & CLARK.

IS OLDEST REBEKAH IN NEW YORK STATE

Still enjoying fine health at the age of one hundred and three years, Mrs. Margaret Van Rensselaer of Saratoga Springs, N. Y., lives by herself, does her own household work, feeds her chickens, tends her little garden of flowers and vegetables, and declares she is just as young as she was a score of years ago. Remarkably active for one of her advanced age, she still finds it a pleasure to look after her own needs and to pay a visit to friends and relatives. And Mrs. Van Rensselaer doesn't mind traveling and trips to neighboring cities are made quite frequently. Besides being distinguished for her remarkable activity at her advanced age, Mrs. Van Rensselaer enjoys the honor of being the oldest living Rebekah in New York state.

Mrs. Van Rensselaer was born in Canada in 1808, moved to Saratoga Springs at the age of 40 and has lived there ever since, now residing at 62 Marvin street. The 10th day of next August she will be one hundred and three years of age. She takes great pride in her little garden and is already making plans for the vegetables and flowers she is to raise this summer. To Mrs. Van Rensselaer were born four children, the late John Van Rensselaer, for several years district attorney of Saratoga county; Lewis J. Van Rensselaer, now in the employ of the Delaware & Hudson Railroad company; Frederick Van Rensselaer, who was killed in the Civil war during the siege of Vicksburg, and one daughter, Mrs. Herrington, of Saratoga Springs. Mrs. Van Rensselaer's husband has been dead for the past forty years. Mrs. Van Rensselaer is a remarkable woman in many respects. She still takes a deep interest in life and its many activities. Her industry has not diminished with the weight of years, for she does well many things more commonly expected only of younger people. She confidently expects to live several years yet, and if her vigor can be taken as an index it seems very likely that her expectations will be fulfilled and the hopes of her many friends realized.

Improvement on Trolley Cars. Electrical engineers are proposing that trolley cars be equipped with ball bearings in order to let the cars coast as much as possible and thus reduce the consumption of energy.

Crop Estimate Shows Increase

New Orleans, La., May 29.—The National Ginners' Association today publishes the following estimates: Condition of the crop 55.6; Acreage increase 5 per cent.; Total acreage planted, 35,108,900. Port receipts today, 3,459 vs 8,071 last year.

Dry Weather Makes Bad Stand.

New York, May 29.—Special reports to Journal of Commerce state there have been good acreage increases in Arkansas and Tennessee, although the crop is ten to fifteen days late. Drought of 3 to 5 weeks makes a poor stand, except early planted, considerable cotton not up. Fairly generous rains very beneficial. The percentage condition in Arkansas is somewhat better than a year ago when it was 78.6. In Tennessee the condition is about the same as last year when it was 79.6. In Missouri a large increase in acreage is indicated, but condition is generally poor on account of dry weather.

ILL HEALTH FORCES LINCOLN TO RETIRE

Robert T. Lincoln, after a long battle with poor health, is about to retire from the position he has held at the head of the Pullman company since the death of George M. Pullman in 1897. He will be succeeded by John S. Runkles, now vice president of the company.

The continued ill health of Mr. Lincoln is given as the cause of his impending retirement from the active management of the corporation, he having been anxious for some time to be relieved of the responsibility. For months Mr. Lincoln's health has been a source of uneasiness to his family and friends, and Mr. Runkles has been acting in his place. Mr. Lincoln has been away from Chicago since about Christmas, spending most of the time in his residence at Washington.

During the life of Mr. Pullman Mr. Lincoln acted as special counsel for the corporation. Robert Todd Lincoln is the son of President Lincoln, and was born in Springfield, Ill., in 1843. He was educated at the University of Illinois, Phillips Exeter Academy and Harvard. He entered the Harvard Law School, but left there to serve in the army as a captain on the staff of General Grant, a position in which he served until the end of the war. Resuming his law studies he was admitted to the Illinois bar in 1867 and practiced law in Chicago.

Mr. Lincoln served as secretary of war in the cabinets of President Garfield and President Arthur from 1881 to 1885 and was United States minister to Great Britain from 1889 until 1893. He is connected with a number of large corporations in Chicago. John Sumner Runkles, who will succeed Mr. Lincoln, is the senior member of the law firm of Runkles, Berry & Johnstone. He was born in Effingham, N. H., in 1844 and was educated at Amherst and later moved to Des Moines, Iowa. He was elected vice president of the company in 1905.

Improvement on Trolley Cars. Electrical engineers are proposing that trolley cars be equipped with ball bearings in order to let the cars coast as much as possible and thus reduce the consumption of energy.

A Cure on Foot. Physician—You must take exercise. The motor car, in a case like yours, gives the best exercise that—Patient—But, doctor, I can't afford to have a motor car. Doctor—Don't buy; just dodge them.

You will find elsewhere in this paper a COUPON which when properly filled in and presented at the office of The Greensboro Telegram with 11 other coupons will entitle you to a copy of "FACTS FOR FANS." This is your opportunity to get a complete record of all baseball happenings, rules, individual averages, team averages, players' names and most any other information that you desire for all organized leagues.

WHAT YOU HAVE TO DO

Begin with today's Coupon and save a Coupon each day until you have 12. Present these at the Office or mail them in (when mailing send two cent stamp for postage), and you will receive in return one copy of the little book full of interesting information to you

NORTH STATE CAPITAL NEWS

Special to Telegram.

Raleigh, May 29.—The Class Day exercises in connection with the commencement season of Meredith College took place this morning at 10 o'clock out on the lawn and were of a most creditable character. This was followed this afternoon by the art exhibit that elicited the highest commendation. And tonight there was the annual concert in which the young ladies of the music and elocution departments took the principal parts. The graduating exercises will take place tomorrow morning at ten o'clock with the literary address by Hon. Leslie M. Shaw, former treasurer of the United States. At night there will be a reception by the president, faculty and trustees of the college to meet Mr. Shaw.

News was received here today of the death of Dr. M. F. Moye, of New Bern. He was 70 years old and devoted many years to work for the North Carolina Grand Lodge of Masons. He was past grand master and had been grand exalted and lecturer for a number of years. The funeral is to be with Grand

Lodge honors.

John Aiken, the "blind tiger," who shot Deputy Sheriff Jernigan seriously, and it was at first thought fatally, at Dunn, Harnett county, is still at large with no clues whatever in the hands of officers as to his probable whereabouts. Jernigan is reported to be improving steadily.

Mr. A. Cannon, of Henderson county, member of the State Board of Agriculture, is here to attend the meeting of the board this week and says that the crop conditions in his section of the State are exceptionally fine with seasons that are proving well adapted for the best development of the crops. Asked about the fruit conditions he said a conservative estimate was probably about a 40 to 50 per cent crop of apples and a very limited yield of peaches. The cold spring with a number of severe freezes damaged the fruit more than it was at first thought they had.

The secretary of state chartered seven new corporations today. They were the

Harborough Co., Bessemer City, capital \$100,000 authorized and \$10,000 subscribed by J. W. Sanders, of Alabama; Palmer Brown, Jr., Rhode Island and O. F. Mason, Gastonia for general cotton mill and textile business. The E. Z. Force Pump Co., Winston-Salem, capital \$100,000, by C. F. Lineberry, C. K. Mesick and others; The Sladesville Canal Co., Sladesville, Hyde county, capital \$5,000 by C. F. Credle and others for maintaining a canal in connection with Slade river; the Deatur Phosphate and Mining Co., Baltimore, Buncombe county, capital \$5,000 by S. W. Battle, P. St. C. Murphy and M. Van Moore for general timber and mining purposes; the Tyron Hotel Co., of Tyron, capital \$25,000 by Eugene Brownlee and others for maintaining a hotel. The Fayetteville Coca Cola Bottling Co., Fayetteville, capital \$5,000 by C. H. Hutt and others; the M. Leigh Sheep Co., Elizabeth City, capital \$6,000, for mercantile business. There is also an amendment to the charter of the Rutherfordton Telephone Co. increasing the capital to \$10,000 from \$1,000. J. C. Mills is president.

The hearing of a petition from citizens of Rutherfordton to the Corporation Commission for the Seaboard and Southern Railway companies to be required to provide an adequate union station has been postponed from May 30 to June 13 to more thoroughly suit the convenience of all parties.

An agreement between the Seaboard Air Line Railway Company and the Baldwin Locomotive Works for ten vestibuled passenger coaches and three postal cars aggregating a cost of \$349,290 has been filed for record in this county.

Jno. A. Wilkerson, of Beaufort county, extensively interested in swamp land drainage in that section of the state, has accepted an invitation from the officers of the North Carolina State Fair to serve as chief marshal for the fair in October.

Special attention given to ladies and children at Lindley Park. Opens June 5. May 30, 21.

JUSTICE APPROVES LONG CAMPAIGN FOR SENATORSHIP

Special to Telegram.

Raleigh, May 29.—Former Speaker of the House of Representatives E. J. Justice, of Greensboro, who is expected to be the manager of the campaign of Chief Justice Walter Clark for the seat in the United States Senate to succeed Senator Simmons, declares his belief that there must be provision made by the State Democratic Executive Committee for two primaries for the senatorial nomination by the people, one to be at the regular election in November, 1912, and the other to follow for only the two candidates who get the highest votes in the first primary.

He approves the long campaign which is impending as affording the people opportunity to more thoroughly familiarize themselves with the issues and the principles that the four candidates, Simmons, Aycock, Kitchin and Clark, represent. He believes such a campaign will quicken interest in political affairs. He thinks there will be time for the people to learn just what principles the several candidates stand for and judge by past records just how zealous each will be in effort to write their principles into law.

Mrs. Brewer's Funeral.

Mrs. Margaret E. Brewer, who died Saturday night at 7 o'clock after a lingering illness, was laid to rest in Green Hill cemetery yesterday morning at ten o'clock. The funeral services were conducted at the home of the mother of the deceased, 405 Fisher street, Rev. Melton Clark, pastor of the First Presbyterian church, conducting the services. Pallbearers as follows served: Messrs. C. M. Vanstony, H. W. Furlow, Will Combs, C. W. Gamble, C. C. Hinkle and W. J. Weatherly.

Lindley Park opens Monday, June 5. 5-30-21.

Celebrated Fourteenth Birthday.

Harper Best, son of Dr. and Mrs. B. W. Best, entertained a number of friends yesterday afternoon at the home of his parents, 414 Gorrell street, the occasion being in celebration of his fourteenth birthday. The evening was passed delightfully, a course of refreshments adding greatly to the enjoyment of the youngsters.

Postoffice Closes.

Tuesday, May 30th, being Decoration Day and a National legal holiday the postoffice will be closed after 12 o'clock noon and there will be no afternoon city delivery. Before noon the windows will be open as usual and the morning deliveries will be made by carriers.

R. D. DOUGLAS, Postmaster.

Women and Society

Delightful Social Affair.

The home of Mr. and Mrs. A. W. McAlister on West Market street was last night the scene of a brilliant reception to the younger people of the city. A large number of guests were entertained in honor of Misses Mary and Maud McAlister, of Winston-Salem, who are visiting here this week. After various games and amusements delicious refreshments were served that increased the already abundant enjoyment to the guests.

Coaching School at Y. W. C. A.

The Young Women's Christian Association wishes to announce a coaching school for high school students, to begin about the middle of June. The school will be taught by Miss Florence C. Lide, of Florence, S. C., who comes with the highest recommendations as a successful high school teacher, and it will be supervised by Dr. J. L. Mann, superintendent of the city schools. Only the certificates from this school will be recognized. The course will cover eight weeks. All high school students wishing to take the work are requested to register at the Y. W. C. A. office this week, in order that detailed arrangements may be made and announced.

A Fishing Party.

The Ladies' Aid Society of the First Reformed church desire to call attention to the fishing party to be given this afternoon from 4 to 8 o'clock at the home of Mrs. J. F. Troxler, 343 West Lee street. Between bites ice cream will be sold.

Maccabee Reception Postponed.

On account of the illness of the Lady Commander the reception to have been given by the Lady Maccabees this afternoon has been postponed until the first Tuesday in June, immediately following the business meeting.

Pianoforte Recital.

The annual pianoforte recital of Miss Florence Hunt's music pupils will be given on June 9, in the Smith Memorial building. This recital is open to the public and parents and friends of the class and music-lovers in general are cordially invited to attend.

Auxiliary Meeting.

The Young Woman's Auxiliary of the First Baptist church will meet this evening at eight o'clock at the church.

Miss Alice Houston, who has been in St. Leo's Hospital for an operation for appendicitis, has recovered sufficiently to be carried to her home on Church street.

Miss Annie Fry returned last night from Converse College, Spartanburg, where she had been at school for the past year.

Mrs. Frank B. Page, who has been under treatment of the great specialist, Dr. Baruch, in New York, for several weeks past, returned to her home on Spring street this morning.

Miss Frances Sutton left yesterday for a brief visit to Denton, N. C.

Miss Fannie Susman left this morning for Norfolk and Baltimore to visit relatives and friends.

Miss Effie May Zimmerman will arrive today on No. 36 from Spartanburg, S. C., to visit Miss Rosalie Smith, 125 Tate street.

Miss Grace Brockmann returned last night from Murphy, N. C., where she had charge of the music department of the public schools.

Mrs. George T. Leach and children, who have been visiting Mrs. Roy H. Jones, have returned to their home in Washington.

Mrs. J. E. Latham has gone to Chapel Hill to attend the commencement exercises.

Mrs. H. G. Braxton and Mrs. H. A. Wright of Mendenhall street leave today for Birmingham, where they will visit relatives for some time.

IMPORTANT CHANGE IN SLEEPING CAR LINE AND SCHEDULE.

Southern Railway announces that with change of schedule, effective Sunday, May 28th, Asheville division train No. 35, which has heretofore been operated through between Salisbury and Memphis, Tenn., will be split at Asheville, and Asheville division train No. 35 will leave Salisbury 9:30 p. m., arrive at Asheville at 2:30 a. m., and stop there. This train will handle sleeping car from Richmond, Va., to Asheville, N. C., formerly the car operated through to Memphis and which may now be occupied at Asheville until 7:00. Knoxville division train No. 35 will leave Asheville at 9:30 p. m., central time, arriving at Knoxville at 1:50 a. m., Chattanooga, 6:00 a. m., arrive at Memphis at 7:00 p. m. This train will handle drawingroom sleeping car between Asheville and Memphis. For further information concerning these changes, see nearest agent, or address,

W. H. McGLAMERY, P. & T. A., Greensboro, N. C.

PERSONAL MENTION

Welborne Forney has returned home from his studies at the University at Chapel Hill.

Mr. Geo. Friend left yesterday morning, after a brief visit with Mr. B. B. Bouldin.

Deputy Marshal S. K. Harkrader, of Asheville, was in the city yesterday.

Vander Liles returned yesterday afternoon from Jonesboro, where he spent Sunday with relatives.

John Rankin, en route from his studies at A. & M. College to his home in Gastonia, is visiting James Townsend for a short time.

Will Sullivan returned to his home yesterday from Raleigh where he has been attending A. & M. College.

Prof. W. F. Alderman is reported to be very ill at the home of his daughter, Mrs. C. H. Ireland, on West Gaston street. His conditions at present is regarded as critical.

Mr. J. M. Millikan, a member of the orphanage committee appointed by the M. P. conference, left yesterday for Denton to inspect a site proposed for the orphanage by that town.

Capt. and Mrs. W. S. Witherspoon returned yesterday from a trip to various points of interest in Florida.

Mr. and Mrs. L. A. Atkinson and family will leave today for a summer vacation with relatives in Indianapolis, Ind.

J. C. Watkins was a business visitor to Winston-Salem yesterday.

Judge T. J. Shaw left yesterday for Graham on professional business.

Thacker & Brockmann.

All City Prisoners Will be Worked on City Streets

At yesterday's meeting of the Board of Commissioners an ordinance was passed, empowering Commissioner Foushee to work all prisoners convicted and sentenced in Municipal Court on the streets of the city, instead of sending them to the county roads as formerly. It is believed that this will be a great deal more profitable than sending them to the roads and having the county to reimburse the city only one half of the costs of the trial. There are a large number of streets that need work badly, in fact there are but few that do not need work, and Commissioner Foushee is of the opinion that with a number of prisoners under his control he will soon be able to get the streets in much better shape. The prisoners worked on the streets will not wear stripes, but will wear overalls of a certain color. Several improvements on the streets were ordered.

The city clerk was ordered to advertise for bids for the opera house, the bids to be opened on June 15. The present lease expires on June 1 and the commissioners will rent it for one year with the privilege of three years. The rent for the various stalls in the city market were fixed by the board, the amount of rent for the stalls ranging from \$15 to \$27.50 per month. Commissioner Brown stated that the market house would be cleaned up and put in much better condition than it is at present.

Individual tables for family suppers at Lindley Park. Opens June 5. May 30-21

Appreciation of Services.

A handsome silver-handled umbrella was last Sunday presented to W. S. Moore by Rev. Melton Clark, as the gift of the Sunday school of the First Presbyterian church. For 57 years Mr. Moore has served as secretary and treasurer of the Sunday school and in appreciation of this fact the gift was presented on the 77th anniversary of his birth.

IMPORTANT CHANGE IN SLEEPING CAR LINE.

Southern Railway announces that effective with first car leaving Winston-Salem and Greensboro, Wednesday night, June 14th, present Winston-Salem and Raleigh sleeping car line will be extended, and become a Winston-Salem-Morehead City and Beaufort sleeping car line. Being handled on same trains as at present in connection with Norfolk Southern Railway.

W. H. McGLAMERY, P. & T. A. Greensboro, N. C.

STANDARD OIL MONEY SPENT IN WILMINGTON

Great Improvements in Plant There--Commencement This Week--Superior Court Convenes--Wilmington Wants Anderson's Baseball Franchise.

Wilmington, May 29.—The Standard Oil Company has just finished a number of improvements of the plant in this city at a cost of \$18,000 to \$20,000. This is one of the largest distribution points of the company in the South, this state and parts of South Carolina and Georgia being supplied with oil from here. The oil is brought to Wilmington on barges, pumped through pipe lines from the river to the large storage warehouses on the company's property, some half a mile away, and is taken from the warehouses and shipped as the orders demand. The improvements recently made include the erection of two large warehouses, building of terra cotta sunshades around the gasoline tanks precluding the possibility of an explosion on account of heat from the sun; installation of the most modern and up-to-date machinery in coopering, steaming, washing and drying barrels; laying of two eight-inch pipe lines from the river to the storage warehouses, and the laying of over 1,500 yards of concrete at the plant, besides a large number of minor improvements, the whole work costing in the neighborhood of \$20,000. Mr. W. D. Blasock, formerly of Stanley county, superintendent of the work.

The Wilmington Retail Merchants' Association, which has recently taken on new life and is one of the most active in the state now, will hold its annual meeting Tuesday evening in the banquet hall of the Masonic Temple. Supper will be served in connection with the meeting, which will be featured by short talks, election of officers and delegates to the annual convention.

Wilmington really continues to bring high prices. The real estate firm of J. G. Wright & Son has purchased from Mr. Louis H. Skinner, the owner, the office building which they occupy and the lot upon which it is situated on Princess street, the consideration being in the neighborhood of \$10,000, which is about \$500 a front foot.

Mr. S. L. Colvert has arrived from Wilmington, Del., to take charge of the local agency of the National Biscuit Company, succeeding Mr. F. L. Dempsey, who has been transferred to the Dallas, Texas, agency.

The commencement exercises of the Wilmington graded schools will be held this week, beginning with the exhibition of school work tomorrow and concluding with the graduating exercises of the High school at the Academy of Music Friday night. The address to the class will be delivered by Dr. Edwin Mims, of the faculty of the University of North Carolina. The closing exercises of Union and Hemenway schools will be held Thursday at the respective school buildings.

New Hanover Superior Court for the trials of civil issues will convene Wednesday morning with Judge R. B. Peebles presiding. The term is for two weeks, less two days. Court was due to convene this morning, but was postponed because Judge Peebles desired to attend the commencement exercises at Chapel Hill.

Cameron F. MacRae, Esq., member of the local bar, was appointed by the chairman of the state board of elections as a member of the New Hanover county board, succeeding Mr. John S. McEachern resigned. The board as now constituted held a meeting and elected Mr. MacRae chairman and William Struthers, Jr., as secretary. The other members are Thos. D. Meares, Jr., Esq.

The board is now making arrangements for the bond issue election to be held Tuesday to decide the question of issuing \$50,000 bonds for roads and bridges. It is believed that the proposition will carry.

An effort to secure the franchise of the Anderson, S. C., club in the Carolina Baseball League is being made by the fans, who hope they will be successful, because Wilmington has no professional ball this season. As soon as it was learned that there is a possibility of securing the franchise, the local fans got busy and in a short time announcement was made that they had sufficient financial backing to take care of the franchise in case it can be secured. Telegrams have been sent to the various towns composing the league asking for information relative to the franchise.

The opinion of the North Carolina Supreme Court in the case of J. C. Holly, a preacher and former hotel proprietor, who was convicted of the charge of murder by poisoning of Edward Cromwell, his ward, some months ago, is awaited with much interest here. It is alleged that Holly murdered the boy for the purpose of collecting life insurance of \$2,000, then set fire to the Rock Spring hotel, conducted by him,

to hide his crime and for further purpose of collecting insurance on furniture which had been previously removed from the building. Holly was sentenced to be electrocuted April 7th, but pending appeal there was a stay of execution. The case was argued in Supreme Court, Friday by William J. Bellamy and C. D. Weeks, Esqs., who were assigned by the lower court as counsel for the defendant, and Attorney General Bickett representing the state. The court did not, of course, give any intimation of what action would be taken with regard to the request for a new trial, but the attorneys for the defendant feel very hopeful. The judges showed keen interest and asked a number of important questions bearing upon the case, which perhaps contains more elements of mystery, most likely never to be solved than any which has claimed the consideration of the courts in this state in many years. The opinion may not be handed down in some days yet.

Not only has Wilmington the largest police force in North Carolina, but probably no other town in North Carolina can get together eight officers who will weigh as much as eight on the local force. The eight men have just had their photographs taken in a group for use in a publication soon to be issued. The following are the double quartet together with their individual weights: Assistant Chief of Police C. W. Woolard, 280 pounds; Sergeant E. J. Grimsley, 250 pounds; Sergeant H. W. Howell, 242 pounds; Sergeant C. E. Wood, 235 pounds; Patrolman M. C. Gray, 225 pounds; Patrolman A. D. Smith, 215 pounds; Patrolman W. R. Applebury, 215 pounds; Patrolman T. N. Hall, 202 pounds. The force of the city consists of about 40 officers.

Carolina Beach will be open for the season this week. The excursions will be run to the resort from Wilmington and there will likely be large crowds on each day. The first will be on Tuesday and be that of the Marine Engineers' Association and on Thursday the Daughters of Liberty will have their excursion. The steamer Wilmington will make three trips from Wilmington to the pier and return. Wrightsville Beach will also open for the season. The Seashore hotel opening Thursday and the first regular dance of the season being given at Lumina Saturday night.

TOLD JUST WHEN HE'D DIE.

Hospital Patient Predicted the Day and Hour of His Death.

Trenton, N. J., May 29.—Although apparently in perfect health some time ago, when he predicted that he would die at noon on Thursday, May 25, the premonition of Frank Lugar, of Lumberville, Pa., came true in St. Francis hospital, this city.

Lugar was admitted to the institution four weeks ago suffering with some minor trouble. His illness was not considered at all serious, but because of his prediction the physicians watched him closely on Thursday. He was in good condition early in the morning, and as late as 11:30 was talking with the nurses. Fifteen minutes afterward he began to pale and become weak.

He died just as the clocks were striking noon.

WHAT IS VINOL

It Represents Twenty Years' Work of Two Eminent Chemists.

After twenty years of study two eminent French chemists discovered a method by which the alkaloids or medicinal elements of the cod's liver might be separated from the useless oil or grease, retaining all the good of cod liver oil and dispensing with the bad, as the oil has no medicinal value. These medicinal elements blended with tonic iron and a mild medicinal wine—make Vinol.

Vinol is not a secret medicine, as its ingredients are printed on every bottle, and in all cases where the healing strengthening influence of cod liver oil is needed, Vinol will give better results, for it contains all the curative medicinal properties of cod liver oil, but without the oil, and it is easily assimilated and acceptable to the weakest stomach.

For all run-down, weakened conditions, and to cure chronic coughs, colds and bronchial troubles, Vinol is unexcelled. We sell it always with the understanding that if it does not do all we claim for it, we will return the money paid for it. Pariss-Klut Drug Co., Greensboro, N. C.

FIFTEEN CATAWBA FARMERS COMING TO GUILFORD COUNTY

Special to Telegram.

Newton, May 29.—A voting contest conducted by The Catawba News to send a delegation of representative Catawba county farmers to Greensboro and Guilford county on a tour of inspection of the good roads, came to an end today at noon, and the following farmers won out and will form the party which leaves here June 1 on No 22 to remain at Greensboro until the evening of June 2:

A. Q. Hawn, Newton, route 5; M. C. Setzer, Newton, route 2; R. R. Coulter, Newton, route 3; O. D. Hawn, Newton, route 4; J. B. Rockett, Hickory, route 1; B. M. Morrow, Claremont, route 2; T. T. Leonard, Catawba, route 2; W. A. Murray, Newton, route 2; J. W. Dellinger, Newton, route 2; R. G. Lee, Newton, route 2; John J. Jarrett, Jr., Newton, route 1; Frank E. Bost, Newton, route 3; D. M. Brittain, Henry, route 2; J. D. Johnson, Henry; O. M. Rockett, Claremont, route 2—Fifteen in all.

These farmers will be guests of The News and of the Greensboro Chamber of Commerce. The object of their visit is to secure first-hand information as to Guilford's good roads, cost, methods of construction, tax rate, etc., and returning loaded with this information, become good roads missionaries in Catawba, which is this year taking its first step toward the construction of good roads. The successful farmers come from all parts of the county and belong to both political parties, and are truly representative in every respect.

GREAT HIGHWAY PLANNED.

It Will Stretch From Palm Beach to Montreal.

New York, May 29.—Confident predictions of an international highway stretching from Palm Beach, Florida, northward across the United States and Southern Canada to Montreal and Quebec, about 3,200 miles long, is made by Howard D. Hadley, chairman of the New York-Montreal road committee, which has been instrumental in carrying forward the part of New York State in this large project.

Governor Dix has presented Mr. Hadley with the pen and pencil with which the Governor recently signed the New York-Montreal road bill, appropriating \$1,500,000 for the highway up to Rous's Point, on the Canadian border. The New York stretch of roadway is only one link in the chain stretching from the southernmost point of Florida to the heart of Canada. Mr. Hadley says that much of the work on the various links in this great chain of highways is already under way.

WANDERING BANKER FOUND.

He Reads of Himself and Then Remembers His Identity.

Albany, May 29.—Ernest D. Hamilton, cashier of the Southbridge National Bank, of Southbridge, Mass., who disappeared last Tuesday, made himself known to the police here yesterday. He is suffering from a nervous breakdown.

Hamilton was sitting in a railway station at Albany this afternoon, reading a newspaper, when he noticed his own picture and a story of the search for him. He finished reading the account and then went over to a policeman and showed the paper, and said: "I am Hamilton, for whom they are looking."

The policeman was reading the account of Hamilton's disappearance at the time, and recognized the man. Hamilton fainted in the policeman's arms and was sent to a hospital. His friends were notified.

Hamilton disappeared from the Southbridge bank at 3 p. m. last Tuesday, and boarded a trolley car for Springfield, on his way to Greenfield, his former home. When he disappeared it was supposed that he had broken down mentally through illness and overwork, as his accounts were in perfect condition.

WAS HIS OWN SON HE SAVED.

Oysterman Dived After a Boy, Not Knowing Who He Was.

Elizabeth, N. J., May 29.—A little boy struggling in Staten Island Sound was the sight that greeted Thomas Payne, an oysterman, of 62 Livingston street, as he landed at the recreation pier upon his return from a trip. Payne leaped overboard, and a few strokes carried him to where the lad had disappeared. He dived and catching the boy swam to the Elizabeth Yacht Club.

One man took the boy from his arms, and as several started first-aid treatment before Payne had climbed upon the dock, one of them ran to the oysterman.

"Look, Tom," he cried, "and see who it is."

Payne's face blanched as he saw he was his son, nine-year-old Andrew. He was too overcome to speak for several minutes, after which he seized the child in his arms and ran home.

How Uncle Sam's Bluejackets Become World's Best Marksmen

Photos copyright by American Press Association, 1911.

UNCLE SAM'S bluejackets are the marvels of the world when marksmanship is considered. The scores they have made in target practice have never been approached by the fighters of any other nation. They handle the ten and twelve inch guns with the accuracy and precision of small rifles, and they are continually establishing new records. Firing at a floating target with an area of 400 square feet at a distance of from two to ten miles with a thirteen inch gun, one crew made a record of 75 per cent of hits, and the lowest record made in recent years with a gun of this size was 40 per cent. As each shot from one of these guns costs \$800 the importance of making few misses can readily be understood. That the good results obtained in shooting at targets can be duplicated in warfare was shown at Manila and at Santiago de Cuba during the war with Spain. The government, in addition to the large amounts expended for powder and shells, appropriates about \$200,000 a year to be divided as prizes among the best marksmen of the navy. These prizes increase the keen rivalry that exists among the bluejackets. The photographs printed above show men stretching a canvas over a target and others examining the netting and canvas to count the hits. The pictures were made during target practice near Fort Monroe.

CHAMP CLARK'S PRESIDENTIAL BOOM IS BEING INFLATED

It is Said The Speaker Has Pushed Governor Harmon Into Third Place in The Running--Race Now Between Clark And Wilson.

Washington, May 29.—Whether it remains so or not, the political wind is now blowing steadily in the direction of Champ Clark for president, and it has been generally admitted that there has been a remarkable shift in public opinion in the past few weeks. It is not so long ago that the friends of Governor Harmon were enthusiastic in the announcement that the Ohio governor would capture the Democratic nomination for the presidency in the national convention in 1912. At that time friends of Governor Harmon claimed first place for him in the race for the nomination; Governor Wilson of New Jersey was conceded to be a close second by the Harmon boomers and the first place was claimed for him by his friends. Champ Clark was conceded by all to be a poor third.

Today the situation is entirely changed. Notwithstanding the fact that the Harmon supporters opened up campaign headquarters under the very nose of the Democratic speaker of the house—in fact an office in the house office building was used as the Washington campaign headquarters—the speaker has come along so rapidly that Governor Harmon has dropped from first place to a poor third, formerly occupied by Mr. Clark. There is wide difference of opinion as to the relative standing of Governor Wilson and Speaker Clark, but both sides admit that so far as is possible to judge at this time public opinion is almost equally divided.

Thus far in the race Mr. Clark has not raised his hand to further his own political ambitions. Members of the house who have talked to the speaker on the subject and who have urged him to announce his candidacy have had no success. Mr. Clark has no intention at this time of announcing his candidacy. He has made the fact so plain to his friends that they have ceased talking to him about it.

Speaker Clark is not running away from the nomination. He is quite as thoroughly infected with presidential bacilli as any man in public life. His friends have been given to under-

For Woman's Ills and Troubles Thousands Testify to Their Merit and Worth

This wonderful medicine goes direct to the seat of the trouble and builds up from the foundation.

If you suffer, relief is here. Do not despair, procure a package of DR. CAREY'S LIFE TONE TABLETS and take them according to directions and you will soon see and realize a difference in your condition. Life will assume a far brighter aspect for you and you will bless the day that you commenced the Life Tone treatment.

Remember, the services of our Board of Advisory Physicians will cost you absolutely nothing. Use the symptom blank, tell us your troubles and let us help you to regain your health and happiness.

This wonderful combination of roots and herbs are particularly adapted to woman and her ills. They impart the strength to endure and build up the system of woman at the time she most needs her strength. Every woman should know what DR. CAREY'S LIFE TONE TABLETS will do for her. Over two-thirds of the diseases peculiar to woman are directly due to an impoverished condition of the blood and a weakened and devastated nervous system.

DR. CAREY'S LIFE TONE TABLETS have proven themselves, to thousands of women to be just the right medicine to take when suffering with painful menstruation, bearing down pains, local and constitutional weakness, violent headaches, dizziness, nausea and a lack of ambition and nervous force.

Charlotte, N. C.

An Ancient Tree.
This is a time in which age appeals to us, the great majority of people taking a strong interest in all sorts of antiquities, from the oldest inhabitants of villages to pottery made in the time of William the Conqueror, and flint-headed axes of that period when fearsome reptiles roamed the earth and terrified the cave man. But of all living antiquities it is doubtful if anything can compete with the 709-year-old tree which still flourishes in Ardeche, France, where it was planted, according to report, on the grave of a nobleman, in or about the year 1202. This venerable tree is an elm, still strong and vigorous, and producing a healthy annual crop of leaves. It is said to be the very oldest tree now in existence.

Still in Training.
"The orator we heard tonight used to be a baseball player."
"I suppose that accounts for the way he pitched his voice."

Both Exceptional.
"Mary has a wonderful complexion."
"Yes. I don't know which I admire most, the complexion or the skill with which she applies it."

Probably Would.
"That sentence is heard incorrect," said the professor, "but it sounds odd to the English-speaking ear."—Harvard Lampoon.

LOOK LIKE THE REAL POSIES

Artificial Flowers That Would Deceive Anyone but Those Who Are in the Secret.

They look just like real. Unconsciously you stoop to smell them.

Many of the old-fashioned garden flowers are reproduced. And wild flowers, too, are seen well imitated.

Fancy a simple white frock with a posy of pink or scarlet geraniums tucked in the belt. Who would not suppose they just had been gathered in the garden.

Or what could be daintier than a flower sprigged garden frock accompanied by a bunch of mammoth crimson and white clover.

Those who like to wear blue will also be able to wear a posy of that color.

Periwinkles with their glossy green leaves are to be had and would add a touch of blue to a summer frock. They would give a finishing touch to a blue marquisette frock embroidered with white porcelain beads.

To Save Buttons.
Did you ever have a garment return from the laundry or the washerwoman with all the buttons on it that it possessed when it went? Never! Then here is a way to save future trouble by taking a little in the present.

Work two rows of buttonholes exactly opposite each other in both hems of the garment. Instead of sewing the buttons to the fabric, sew them to a tape, being sure to have the distance between the buttons on the tape the same as that of the button holes. Fasten these buttons through the buttonholes on one hem, pinning at each end with a tiny safety pin. Each time the clothes are washed take out the tape and wash it at home. This idea can be used for every size of button and every texture of fabric.

Your Old Raincoat.
Don't throw away that old raincoat of waterproofing. You can use it yet. Rip apart and wash it thoroughly, and then fashion it into:

A large apron for household use, good for scrubbing and washing wear. A chemistry apron for the daughter in high school.

Dusting cap and sleeve protectors. Cases for sponges, brushes and toilet articles. A cover to tie over the laundry basket.

A Good Press Agent.
"Why do you never go fishing with anybody except Winsley?"
"Well, his conscience isn't as sensitive as mine. I like to have him along so that he can do the talking about the day's sport."

The Odd Change.
The value of the farms in Kansas is only \$1,733,652,000.61. The sixty-one cents was for a new wrench and a quart of gasoline.—Kansas Industrialist.

Another Man Conspiracy.
A hatter says size of hat is no index of brain under it. Women would have all the best of it if it were.—New York Herald.

NOVEL MASSAGE CREAM

Perfect Skin Food That Removes Wrinkles and Clears Complexion.

The most delicate skin will quickly respond to the soothing and tonic effect of Hokara, and when this pure skin food is used, pimples are soon a thing of the past.

Hokara is the only massage cream that is an antiseptic, and pimples, eczema, and all skin blemishes soon disappear when it is used.

Although far superior to the ordinary massage creams and sold on a guarantee of "best you ever used or money back," yet the price is a trifle, only 25c. for a liberal jar; larger size 50c.
Sold on guarantee by Howard Gardner.

ROBERT CARTER WRITES OF DOINGS IN THE COUNTRY'S METROPOLIS

(By ROBERT LEE CARTER.)

Special to Telegram.
New York, May 29.—New York, that is that section of the city remote from Long Acre Square and Coney Island has been haunted by the spectre of a water famine. Of course the habitues of the Great White Way and of Coney Island use so little water for drinking purposes that the idea of a water famine has little terror for them.

It appears that in the storage reservoirs in which is contained the cities reserve water supply there is water enough for only 200 days use if reasonable care is used as this would carry us pretty nearly to Christmas even if there is no rain in the meantime, it is hard for a man not an expert in water supply to see where the great need for alarm exists.

It is one of the characteristics of New York to love to be alarmed, however, and we are having all sorts of delightful shivers about the prospect of being without water to drink before the summer is gone. And in a way typical of the big city, going ahead wasting water as lavishly as though we had a supply sufficient for 2,000 instead of a measly 200 days.

In spite of the prospect of having no water, the work of booming New York as the finest summer resort in the world is going merrily on.

The Hotel Men's Association has appointed a committee consisting of H. F. Stimson, chairman; George C. Boldt, Fred A. Reed, William C. Muschenheim, Gustav Baumann, Fred Sterry, Edward H. Tierney, A. H. Thurston and W. E. Woodley to write the rest of the country to drop in and see us during the warm season, pointing out the many attractions we have to offer, in the way of amusement, instruction and comfort. Chairman Stimson very truly remarks:

"The great trouble with us New Yorkers is the fact that we have become so thoroughly accustomed to living the strenuous life, that we have forgotten the thousand and one beauties that surround us on every side. That is the reason that the hotel men of the city are raising \$100,000 this year to spend in telling the people of America that we have something here besides the great business center of the world. We are going to try and educate them, and we are going to be successful in our efforts, too."

A garage for baby carriages recently was started by an enterprising girl in New York. It appealed at once to mothers who live in apartment houses and who found great difficulty in getting the carriages in and out of the apartments, especially those in upper floors.

As a result the promotor of the plan quickly built up a large business and is making an excellent profit weekly from the idea. The girl was out of work, and as she stood by her window thinking what she could do, she observed a mother struggling to get a baby carriage up the steps. Instantly she thought: "Wouldn't it be a good idea to have a garage?" She set to work and, renting a commodious room, began charging 50 cents a week for housing baby carriages. She arranged to see that each carriage was in front of the house where the owner lived at a certain hour each day or in answer to a telephone call. Her garage soon was taxed to its utmost. She turned next to providing sand piles and swings for children. Her profits are increasing rapidly.

Joe Johnston, Jr., the brilliant young newspaper man and politician from Georgia is destined for bigger things unless all signs fail. He is a favorite with Mayor Gaynor who seems to have a penchant for newspaper men and Southerners. Johnston who has been a deputy fire commissioner was seriously considered as a successor to Commissioner Walden when that very able citizen was transferred to the Police Department, and will probably get something high class in the way of office before long.

Gov. Brown of Georgia, was the principal guest at the annual luncheon of the Dixie Club, given at Delmonico's. It was the first affair to be given by the club since the election of the new President, Mrs. Augusta Milton Anderson. The tables were decorated with Florida moss and tulips. Seated at the honor table were Mrs. James A. Allen, Mrs. W. H. Davis, Mrs. Sidney Hall, Mrs. L. Z. Duke, Miss E. M. Pelletreau, Mrs. Henry Pearson, Mrs. Donald McLean, Marion Harland, Lillian Bell, Mrs. W. G. Brown, Mrs. MacNutt, Will Carlton, and John Temple Graves. A touch of informality was given the luncheon by the singing of a number of Southern airs, everybody joining in the chorus. President Cooper of the American

Cotton Manufacturers' Association in his address before the annual convention at Richmond, has some good advice for the growers of cotton in the South. He told them that the South is "in as much or more danger of losing its supremacy by short crops, abnormally high prices and manipulated markets than it would be with larger crops at steady, fair and remunerative prices," which is beyond question true. The former, he said, would stimulate the growth of cotton in countries that require cotton for manufacturing purposes, referring not to growth in those countries but to efforts in them to promote the growth of cotton wherever outside of the United States conditions are adapted to it. He urged the American grower not to contend to stand still and merely hold his present position, but to "bestir himself to keep peace with increasing demand for American cotton." "The growth of cotton," he said, "should and can be controlled by the American farmers, and to this end the Southern farmers should be protected and encouraged to use improved methods of cultivation and to make greater efforts to grow larger and better crops."

If President Cooper has the idea that the Southern cotton planters with cotton at 15 cents a pound are not raising every pound they can he has another guess coming.

New York is preparing to handle the tramp problem in a scientific manner. It costs approximately \$2,000,000 a year to care for the habitual vagrants or "tramps" in New York States in public almshouses, jails and hospitals in addition to the contributions of money, food and clothing for them by individuals.

There are over five hundred thousand of the "gentry" in the United States, there number is increasing steadily, and they very naturally drift in increasing numbers into the most populous and richest States in the Union.

Their maintenance or the disposition of them has assumed the proportions of a serious "problem" in this State, and the Chanler bill now pending in the legislature aims to solve it by the establishment of a State farm colony. The State Board of Charities has formally indorsed the bill. "The State farm-colony plan," it says in its recommendation to the legislature, "has been tried with success in other countries and it can undoubtedly be operated with equal success in this state. The large expense entailed upon the public directly by the institutional support of tramps and vagrants is a warrant for the statement that the establishment of a state farm colony would prove an economic measure even though the state should be compelled to maintain in such a colony several hundred tramps a year.

Foley's Kidney Remedy Acted Quickly.
M. N. George, Irondelet, Ala., was bothered with kidney trouble for many years. "I was persuaded to try Foley's Kidney Remedy, and before taking it three days I could feel its beneficial effects. The pain left my back, my kidney action cleared up, and I am so much better I do not hesitate to recommend Foley's Kidney Remedy." For Sale by Howard Gardner.

Unappreciative.

A man won't take his good advice
And paste it in his hat.
He writes it on a piece of ice
And lets it go at that.

FOLKS PAST FIFTY MUST USE 'CASCARETS'

What Glasses Are to Weak Eyes, Cascarets Are to Weak Bowels. Old people Need Them and the Need Is Only Natural.

You old people—Cascarets are particularly for you. You who don't exercise as much as you need to. You who like the easy chair. You whose steps are slow, and whose muscles are less elastic. You must realize that your bowels have also become less active.

Don't regard Cascarets as physic. They stimulate the bowels just as some foods will; do just as exercise would do, if you took enough of it. They are not harsh, like salts and cathartics. The help which they give to weak bowels is just as natural and gentle as the spur of youth.

When eyes grow dim, you help them. Do the same with the bowels when age makes them less active. There is nothing more important. Costive bowels mean the decaying food is clogged there. And the ducts of the bowels suck their poisons into the blood. You can't feel well until this is corrected. But do it gently—not with a bowel irritant. And do it regularly—one Cascaret a day. Coax the weak bowels—don't drive them. Just try a 10 cent box of Cascarets.

TALK OF WAR ISN'T POPULAR

"Protection of Americans" Not New Slogan.

HEARD AWAY BACK IN 1896.

Experience in the Spanish-American Scrap Has Changed Sentiment—Easier to Become Entangled Than to Get Out of the Trouble—Congress Does Not Name Presidents.

By ARTHUR W. DUNN.

Washington, May 29.—[Special.]—Protection of American citizens in foreign countries is not a new matter of discussion in congress. We have had some very interesting debates on the subject, and Senator Stone in asserting that the United States should march an army into Mexico to protect Americans was not giving voice to words that had not been spoken before.

In defense of the American Armenians we have sent warships to Turkey, and in 1896 Senator Frye grew vehement in his declarations on the subject of protection to Americans. He praised England highly for sending an army deep into Africa at a cost of \$25,000,000 to get one Englishman who had been held by the king of Abyssinia.

But it was a very ticklish time to talk war just when the federalists and insurgents were on the border. More than that, we have learned something since 1896. The Spanish war has shown us that it is easy to get in, but mighty hard to get out when we become entangled with the peculiar peoples of Spanish blood and tropical training.

Nominating a President.

Jim Mann no doubt knew when he gave Champ Clark such a sendoff for president that it is very difficult for congress to make a president. Blaine couldn't get it; neither could Reed, Alton, Sherman and in our later day Uncle Joe Cannon. Many of these men have been named just as Champ Clark has been named several times. Their friends applaud, and there is a general good feeling, but it is hard to go from congress into the White House. Garfield was the last man to enjoy the distinction.

When the Leaders Consult.

Let something new be thrown into the senate and there is a scurrying about in an effort to see just what should be done with it. In the old days nothing new was ever presented until it had been carefully scanned by some elder statesman. Then if the new man wanted to present it he could do so. The elder statesmen would arise and say something deprecatory about it, but it might go through.

In these days no one is consulted, and some of the younger men do almost anything queer and unusual. Then the leaders consult. Warren leans over to Lodge; both lean over to Gallinger; Cullom undertakes to put the senate into executive session; Murray Crane hurries and scurries about on the outskirts of the senate.

Meanwhile some one is holding the floor in a desultory conversation, and when the leaders are ready to take a stand the resolution or whatever it may have been which caused the ripple of nervousness is disposed of. "The senate is not what it used to be," say the old timers, with a sigh.

Lodge and Roosevelt.

One of the straws which shows which way the political wind is blowing is that Senator Lodge has begun to consult with and get on better terms with Theodore Roosevelt.

"I am not sure," said a man who knows both men thoroughly, "that Roosevelt may not be a factor in next year's contest. Lodge is getting close to him again. For a time they have been wide apart, but Lodge may be casting an anchor to windward."

Roosevelt felt severely the disaffection of Lodge, for there was no man in public life that he did so much for as the Massachusetts senator. When the breach between them seemed the widest Roosevelt asked of a mutual friend, "Does Cabot think I am afflicted with some contagious disease?" If he did he no longer thinks so. The old time political friends seem to be getting together.

Two Days For Kern.

Cattle and meats were the subject under discussion in the finance committee, and a Texas cattle attorney was protesting against free meats. Senator Kern of Indiana interrupted to ask this question, "Did you ever try any of those two dollar beefsteaks at the Willard cafe?"

"I have seen," replied the attorney, "steaks sell in the market for 25 cents that would cost at the Willard cafe \$1.50. Senators get the idea that the cost of living is high because the hotels are charging such high prices."

"I want to say," said Kern hastily, "that I only stopped at the Willard two days."

They Call Him "Co-Ed."

Senator Crawford's name is Coe I. The newspaper men about the senate have changed it to "Co-Ed." The real name almost justifies the nickname, but how about the real "co-eds" in many different institutions of the country? They have become proud of the title and may not like to have it applied to a South Dakota senator.

SOUTHERN RAILWAY SCHEDULE.

N. B.—The following schedule figures are published only as information and are not guaranteed.

12:20 a. m., No. 29 daily, Birmingham special. Through Pullman sleeping and observation car, New York to Birmingham. Dining car service.

12:32 a. m., No. 32 daily, the Southern's Southeastern Limited. Pullman sleeping cars from Jacksonville and Augusta to New York. Also handles Pullman Sleeping car from Raleigh and Greensboro to Washington, D. C., this car ready for occupancy at Greensboro, 10:00 p. m. Dining car service.

12:45 a. m., No. 112 daily, for Raleigh and Goldsboro, Pullman Sleeping car from Winston-Salem to Raleigh. Open at 9:15.

2:10 a. m., No. 30 daily, Birmingham special, Pullman sleeping and observation car for New York. Day coach to Washington. Dining car service.

2:25 a. m., No. 31 daily. The Southern's Southeastern Limited. Pullman sleeping cars, New York to Jacksonville and Augusta. Pullman Sleeping Car from Washington to Greensboro and Raleigh. Dining car service.

3:45 a. m., No. 45, daily, local for Charlotte, connecting for Atlanta and points South.

7:10 a. m., No. 8 daily, local for Richmond connecting at Danville with Norfolk train.

7:20 a. m., No. 37, daily, New York and Atlanta and New Orleans Limited. Pullman Drawing-room sleeping cars, and club and observation cars New York to New Orleans. Pullman sleeping cars New York to Asheville, Charlotte and Macon. Pullman Chair car Greensboro to Montgomery. Solid Pullman train. Dining car service.

7:30 a. m., No. 108, daily, for Durham, Raleigh and local points. Handles Pullman Sleeping Car from Washington to Raleigh.

7:35 a. m., No. 11 daily, local to Atlanta. Sleeping car from Richmond to Charlotte and Norfolk to Asheville.

7:45 a. m., No. 150 daily, except Sunday, for Ramseur.

8:15 a. m., No. 237 daily, for Winston-Salem, and daily except Sunday, for N. Wilkesboro.

9:30 a. m., No. 44 daily, for Washington and points North.

9:40 a. m., No. 144 daily, for Raleigh and Goldsboro. Handles Atlanta-Raleigh sleeping car.

12:30 p. m., No. 21 daily, for Asheville and local points, Handles coaches and parlor car through to Asheville.

12:50 p. m., No. 130 daily for Sanford, Fayetteville and Wilmington.

12:55 p. m., No. 7 daily, local for Charlotte and points South.

1:40 p. m., No. 36 daily, U. S. fast mail for Washington, New York and points North. Handles Pullman Sleeping Cars from Birmingham and New Orleans to New York and Pullman Sleeping Car, Memphis to Richmond. Day coaches to Washington. Dining Car service.

2:20 p. m., No. 207 daily, except Sunday, for Winston-Salem, making connection for North Wilkesboro.

2:30 p. m., No. 151 daily, except Sunday, for Madison.

3:20 p. m., No. 22 daily, for Durham, Raleigh and Goldsboro. Handles parlor car to Goldsboro.

3:30 p. m., No. 230 daily, except Sunday, for Ramseur.

3:45 p. m., No. 132 daily for Sanford.

4:55 p. m., No. 131 daily, for Mt. Airy.

6:10 p. m., No. 35 daily, U. S. fast mail for Atlanta and points South. Pullman sleeping cars to New Orleans and Birmingham and Pullman sleeping car Richmond to Asheville, DiDning car service.

6:35 p. m., No. 235 daily, for Winston-Salem.

7:20 p. m., No. 43 daily for Atlanta. Pullman sleeping car and coaches to Atlanta.

10:13 p. m., No. 38 daily, New York, Atlanta and New Orleans Limited. Pullman sleeping cars, and club and observation cars to New York. Dining car service. Solid Pullman train.

1:20 p. m., No. 233 daily, for Winston-Salem.

10:31 p. m., No. 12 daily, local for Richmond. Handles Pullman sleeping cars for Richmond and Norfolk.

ELECTIONS ARE ENDED.

They Pass Off Quietly, With Light Vote Cast.

Lima, Peru, May 29.—The congressional elections, which have been going on for the past three days, are ended.

No disorders of any kind have been reported, and all is quiet throughout the republic. Of 19,000 votes enrolled in Lima only about 500 cast a ballot. Rumors are current here that rioters at Iniquique, Chile, have made an attack on the Peruvian consulate and the Peruvian Club. No confirmation of this has been received.

CASTORIA

The Kind You Have Always Bought, and which has been in use for over 30 years, has borne the signature of and has been made under his personal supervision since its infancy.

Allow no one to deceive you in this. All Counterfeits, Imitations and "Just-as-good" are but Experiments that trifle with and endanger the health of Infants and Children—Experience against Experiment.

What is CASTORIA

Castoria is a harmless substitute for Castor Oil, Paregoric, Drops and Soothing Syrups. It is Pleasant. It contains neither Opium, Morphine nor other Narcotic substance. Its age is its guarantee. It destroys Worms and allays Feverishness. It cures Diarrhoea and Wind Colic. It relieves Teething Troubles, cures Constipation and Flatulency. It assimilates the Food, regulates the Stomach and Bowels, giving healthy and natural sleep. The Children's Panacea—The Mother's Friend.

GENUINE CASTORIA ALWAYS

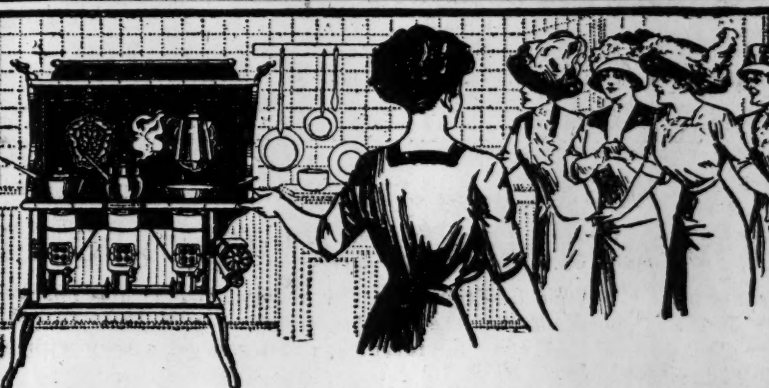

Bears the Signature of

Chas. H. Fletcher.

The Kind You Have Always Bought

In Use For Over 30 Years.

THE CENTAUR COMPANY, 77 MURRAY STREET, NEW YORK CITY.

"The Best in the World"

As the bride led her friends into her cool, spotless kitchen, they broke into a chorus of approval.

"Well, I am proud of it," she said, "and proudest of all of my stove. It's a New Perfection Oil Cook-stove, and I think they are the best in the world. They toast, roast, broil and bake equally well—really to perfection—and the kitchen stays much cooler and cleaner than with any other range. This stove cuts my kitchen work almost in half."

There is no wood or coal to carry for a New Perfection; no ashes to clean up. It is ready for use as soon as lit; out at a touch of the fingers—economical as well as quick and convenient.

New Perfection Oil Cook-stove

Made with 1, 2 and 3 burners, with long, turquoise blue enameled chimneys. Handsomely finished throughout. The 2- and 3-burner stoves can be had with or without a cabinet top, which is fitted with drop shelves, towel racks, etc. Dealers everywhere; or write for descriptive circular to the nearest agency of the Standard Oil Company (Incorporated)

Strong Healthy Women

If a woman is strong and healthy in a womanly way, motherhood means to her but little suffering. The trouble lies in the fact that the many women suffer from weakness and disease of the distinctly feminine organism and are unfitted for motherhood. This can be remedied.

Dr. Pierce's Favorite Prescription

Cures the weaknesses and disorders of women. It acts directly on the delicate and important organs concerned in motherhood, making them healthy, strong, vigorous, virile and elastic.

"Favorite Prescription" banishes the indispositions of the period of expectancy and makes baby's advent easy and almost painless. It quickens and vitalizes the feminine organs, and insures a healthy and robust baby. Thousands of women have testified to its marvelous merits.

It Makes Weak Women Strong. It Makes Sick Women Well. Honest druggists do not offer substitutes, and urge them upon you as "just as good." Accept no secret nostrum in place of this non-secret remedy. It contains not a drop of alcohol and not a grain of habit-forming or injurious drugs. Is a pure glyceric extract of healing, native American roots.

MILEAGE OF HOUSE PARED

Congressman Lee Finds Solons Are Overcharging the Government.

Washington, D. C., May 29.—Without any flourish of trumpets, Representative Robert E. Lee, of Pennsylvania, chairman of the House Committee on Mileage, is doing a little economizing on his own hook by working out a readjustment of the basis of compiling the mileage accounts of members. For 12 years there has been no readjustment of the basis of compiling these accounts and meanwhile the railroad developments of the country have resulted in the material shortening of the distances from a large number of points in the country to Washington.

When the members handed in mileage accounts to Chairman Lee he found on examination that in many cases, owing to the building of new lines of railroad and the straightening of old lines, they were allowing themselves a greater mileage than the facts warranted.

The biggest mileage account of any members is that of Delegate Kalaniano'le, of Hawaii, who gets \$2,315.20 figured on a basis of 5,178 miles. The Resident Commissioners of the Philippine Islands are given a lump sum of \$2,900 each under an act of Congress. The Resident Commissioner from Porto Rico under an arrangement originally made by the State Department is allowed but \$130, which isn't enough to pay his actual expenses.

The sins of society are most keenly felt by the man who couldn't get in.

Many a man can't find work because he is such a good boss.

ANDERSONIANS WALK AWAY WITH GREENVILLE GAME

Greenville, S. C., May 29.—With left fielder Blackstone in the box for the locals today Anderson took the game by pounding hits. After five singles, and an error had let in four runs in the eighth with only one down, Redfern was put in the box and held the visitors hitless. Coombs was very effective allowing only one hit to any inning. In the first walk, an error and a home run by Shortstop Goodman gave the locals

three runs.
Score by innings: R. H. E.
Anderson 100 201 140—9 17 1
Greenville 300 010 000—4 5 3
Batteries—Coombs and Klock. Blackstone, Redfern and Kite. Umpire—O'Brien.

The Camp Meeting.

The services at the tent on Teague field continue with increased interest. At last night's service there were sixteen requests for prayer. The tent was crowded last night and also at the Sunday services. There will be services this morning at 10:30 o'clock, this afternoon at 3 o'clock and tonight at 7:45. This afternoon at 2 o'clock there will be a service for children. The public invited to attend all services.

IN THE WORLD OF SPORTS

COULDN'T PLAY WIN- NING BALL-KICKED

**Spartanburgers More Expert at
Latter Than Playing Ball—Result
Was Shut-Out For Boys From
Musical Cotton Spinning City—
Score 10 to 0.**

Doyle's men, especially Tony Walters, had everything their way yesterday afternoon and the Spartanburg "kickers," alias Red Sox, alias the Musicians, went down in defeat by a score of 10 to 0. Manager Billy Laval was fined and sent to the bench in the third inning for abusive language toward Umpire Canny, but notwithstanding this the other Spartans were more or less obstreperous during the entire game. It was a rather dull and listless affair throughout and the kicking of the Spartans added to the discomfort of the fans. Umpire Canny was not wholly satisfactory to either side but not many of his decisions were bad. He called a ball foul on Doak that was clearly inside the line and was in reality a two or three base hit. Doak got a hit anyway so no one was hurt. Laval's kicking was on account of decisions on bases.

Walters was in the box for the locals and pitched great ball, adding another to the shut out games of the season. He was at all times master of the situation and only five Spartans made hits. These were scattered at intervals throughout the game. At no time did the Musicians get an opportunity to score.

The locals hit Wood freely getting a total of 15 hits in 8 innings and piled up runs and hits in the fifth and seventh innings. Rickard starred with the stick, getting four safeties in as many times at the bat, and a base on balls in addition. Fuller, Bentley and Carroll also got two hits each.

The fielding of the Patriots was snappy and of a high order, while that of the visitors was slow and ragged. The locals had the Red Sox out classed in every way and the victory followed as a matter of course. The fact that Walters again pitched and won before the date of the expiration of the 12 days alleged suspension gives Spartanburg the opportunity of contesting the game, but this will amount to but little.

The official score:

Greensboro—	AB. R. H. P. O. A. E.
Rickard, cf.	4 3 4 4 1 0
Doyle, 2b.	4 1 1 2 2 0

Greensboro 100 031 50x—10
Spartanburg 000 000 000—0

Summary: Three-base hits—Doyle. Two-base hits—Rickard, Dubbs. Sacrifice hits—Doyle, Doak, Stuart. Bases on balls—off Wood 2; off Walters 5. Strike outs—by Wood 6; by Walters 5. Stolen bases—Doyle 2, Rickard. Double plays—Walters to Doyle to Fuller. Left on bases—Greensboro 8, Spartanburg 4. Wild pitches—Wood 2. Time—1 hour and 38 minutes. Umpire—Mr. Canny. Attendance—600.

COUPLE ON 8,000-MILE WALK PASSED THROUGH GREENSBORO

A pair of crack athletes, Mr. and Mrs. D. H. Wolf, visited Greensboro yesterday for a short time. They are amateur pedestrians, traveling for their health, which according to their own report and hardy outward appearance they seem to have acquired to an enviable degree. Mr. and Mrs. Wolf claim Kansas City as their home. From that place on October 15 they began a journey of 8,000 miles. The travelers walked from their home to San Antonio, Tex., then to Atlanta, Ga., and from that place to Greensboro, a point which marks the completion of considerably over half of the long tramp. Last night they continued the trip northward through Vir-

At Memphis—Mobile 5, Memphis 1.

At Nashville—New Orleans 14, Nashville 0.

ginia, and will pass through Danville and Richmond. Before returning to Kansas City the Nation trotters will pass through Baltimore, Philadelphia, New York, and Chicago. The trip will thus include the majority of the states of the union and most of the large cities of the east and middle west.

The present journey is the third that the Woofs have undertaken. Determining upon exercise as the best remedy for restoring a sound constitution, which both were lacking three years ago, they covered a tramp of 3,000 miles through the Rocky Mountains during the summer of 1909. Last year they made a 2,000 mile stroll to New York and return to Kansas City. Such excellent results were received that a jaunt on a larger scale was planned. The walkers expect to finish the 8,000 miles of the present trip and reach Kansas City in November, 1911.

The couple are dressed in khaki walking-costumes. They are accompanied on their travels only by a faithful dog and horse that draws a small cart. In this is carried a tent, clothing, cooking utensils, etc.; for the pair are ardent lovers of fresh air and spend no time indoors but camp in the open and cook all their own meals.

NEWS NOTES OF OAK RIDGE

Oak Ridge, May 29.—Prof. J. W. Hester left last week for his home in Greenville county. Prof. Hester has had charge of the Department of Mathematics here for three years, and has brought up that department to a high degree of efficiency.

Prof. E. P. Holt will not play professional baseball this summer. He is busily engaged in farming.

The catalogue for 1910-'11 is in the hands of the printer and we expect the first instalment next week. This cata-
